SEVENTY-SIXTH
ANNUAL REPORT
OF THE
MUNICIPAL GOVERNMENT
OF THE CITY OF
NASHUA, N. H.

FOR THE
FINANCIAL YEAR
1928

THE MARQUIS PRESS

NASHUA, N. H.

1929

Annual Message
TO THE
Board of Aldermen
BY

MAYOR WILLIAM F. SULLIVAN

NASHUA, N. H., JANUARY 1, 1929

Gentlemen of the Board of Aldermen:

One year ago this municipal government took over the responsibilities and obligations of administering the business of the City of Nashua.

We are here today to give an accounting of our management and to consider our line of action for the coming year. What we did last year and what we do this year will have a direct bearing on our city in the future.

Our first consideration should be to keep in mind the financial condition of this corporation and to be careful that expenditures are kept within the financial limits of the average taxpayer.

It may be instructive to glance at the City's debt of today and compare it with a year ago.

Gross debt Jan. 1, 1928	\$2,079,000.00
Gross debt Jan. 1, 1929	2,214,000.00
	<hr/>
Increase	\$ 135,000.00

Loans issued 1928

Canal Street Bridge	\$ 175,000.00
Paving and Sewers	60,000.00
Municipal Building	20,000.00
	<hr/>
	\$ 255,000.00

Loans paid	120,000.00
Net increase	\$ 135,000.00
Sinking Fund January 1, 1929 .	\$ 294,535.42
Net debt January 1, 1929	1,919,464.58
	<hr/>
	\$2,214,000.00
Increase in gross debt	135,000.00
Increase in net debt	100,142.06
	<hr/>
Valuation April 1, 1928	\$44,220,996.00
6% of valuation	2,653,259.76
Net bonded debt	1,919,464.58
	<hr/>
Borrowing capacity Jan. 1, 1929	733,795.18
Borrowing Capacity Jan. 1, 1928	815,738.16
	<hr/>
Decrease in borrowing power under last year	\$ 81,942.98

An analysis of the financial standing is not at all discouraging when we consider that the Canal Street bridge, paving and sewers, and the Municipal building loans (Veterans' Home) required bond issues totaling \$255,000.00 last year.

The Assessors inform us that it is their opinion that revenues to be derived from taxation will have to come from about the same valuation as last year. This year an effort was made to reduce taxes without increasing valuations and the only way to do this was to curtail expenditures. As a result the reduction in the tax rate was slight. However it is the only thing to do considering the financial situation of merchants, manufacturers and small taxpayers. Economy must be practiced and it is only just that the City Government see to it that expenditures are wise and prudent.

City Hall

The principal problem awaiting solution is either a remodelled City Hall or a new City Hall. This matter by its

very necessity and expense should arouse keen interest and by its very nature will be an issue to settle and settle right for years to come.

In January 1928 your Honorable Board confirmed the appointment by the Mayor of an able, painstaking and representative Committee of citizens to investigate and report upon the structural condition of City Hall and to further study the needs of a suitable building to house the City offices now and in the future.

We were fortunate in the selection of this Committee for it embraced men of business, of finance and men with a knowledge of construction and with an understanding of the future requirements of a growing city.

The personnel of the Committee was:

Walter Whipple, Manufacturer

Hon. William H. Barry, Attorney and former Mayor

Hon. Henri A. Burque, Justice of Superior Court and former Mayor

Hon. Eaton D. Sargent, Manufacturer and former Mayor

Raymond S. Cotton, Journeyman and Craftsman

William G. Finn, Attorney and Real Estate holder

J. Pierre Lampron, Merchant and Real Estate holder

Michael H. O'Grady, Merchant and Real Estate holder

Hon. Eliot A. Carter, Manufacturer and State Senator

The Committee organized with Mr. Walter Whipple chairman and Hon. Eliot A. Carter Secretary. Frequent meetings were held and a careful inspection was made of the City Hall. Expert technical advice was secured as to what was best to do to repair, remodel, rebuild or carry out some other plan.

A full report has been submitted to each member of this Honorable Board giving in detail the structural weaknesses of this eight-five year old building with recommendations and conclusions. An abstract from the report of Charles T. Main, Inc. reads as follows:

"This building in its present condition is not safe from a standpoint of strength or as a fire risk." Quoting again: "If the building is to be used for some while longer, temporary repairs should be made to strengthen some of the weakest portions." The Committee's work uncovered many weak and dangerous parts and the Lands and Buildings Committee took cognizance of some of these and deemed it imperative that the situation be improved in part. Accordingly the 3800 lb. bell in the tower was removed, the tower anchored, the first floor reinforced in places and a portion of the chimney rebuilt.

In the Advisory Committee's report seven plans of reconstruction and construction were suggested to this Board for their consideration.

First—Minimum alterations to city Hall and Municipal building with probable repairs in from eight to ten years estimated costs without furnishings
\$40,000.00

Second—Similar to plan one with further changes. Estimated cost without furnishings
\$52,000.00

Third—Remodel, as per Nashua Building Company's plan, three stories with elevator. Estimated cost including furnishings
\$135,869.00

Fourth—Remodel, as per James' plan, estimated cost with furnishings
\$194,000.00

Fifth—New City Hall on old foundations, as per James' plan. Estimated cost with furnishings
\$207,500.00

Sixth—New building on land now occupied by City Hall and Municipal Building. Estimated cost by Committee, equipped and furnished
\$225,000.00

Seventh—New building and land, new site. Estimated cost by Committee, equipped and furnished
\$285,000.00

Less sale of Old City Hall and Municipal Building
\$160,000.00

Net estimated cost of new City Hall on new location
\$125,000.00

In the proposed plans no large auditorium or hall was considered in estimating the costs. The Committee further said: "Regardless of what plan you may adopt we believe that the facts as brought out by the Main report and confirmed by the Nashua Building Company's plan and the Thomas M. James plan, call attention very forcibly to the present unsafe condition of the City Hall. We therefore cannot recommend too strongly that you take prompt action to remedy this situation."

The proposed change in location has brought out some discussion as to the sentimental value of the present City Hall. The Committee on this point has this to say: "Though not unmindful of a sentiment among some of our citizens that the present City Hall be preserved for historical and architectural reasons, we believe that the building is not old enough, its historical associations are not important enough nor is the period of architecture which it typifies good enough to warrant preserving the building for these reasons alone."

In conclusion the Committee recommends: "After careful and thorough investigation we are unanimous in our belief that safety and convenience demand immediate action." and further "We recommend the erection of a new City Hall on a suitable site."

With this able, forceful and truthful exposition of the City Hall situation before us we can do nothing less than carry on to a successful solution the City Hall problem, of either remodelling the present building or erecting a new City Hall on a new site. To do one or the other, in a manner which will be satisfactory to this and the coming generations, thought, talent and skill will have to be employed. Finances, proper design, location, purchase of a site, disposal of existing property, all these things must be carefully weighed and also, whether in the construction of a new City Hall it should take on the aspect or features of a Soldiers' Memorial Building, is worthy of thought. To do all these things in an eminent and satisfactory manner and in a way in which the public will join and in which the taxpayers will have confidence and in a manner to assist the City Government in Architectural design, knowledge of specifications, contracts and supervision of construction, I would recom-

mend to this Board the appointment of a City Hall Commission or Committee of qualified citizens to work in conjunction with the Lands and Buildings Committee.

Zoning

Another matter which is engaging the attention of the people of our city is a flexible and suitable zoning ordinance.

The State Legislature at its 1925 Session passed an act enabling cities to appoint a Zoning Commission. The law is known as "An Act to empower Municipalities to adopt Zoning regulations."

Such ordinances have been adopted in about 500 cities in the United States. Our nearest city to the north, Manchester, and our nearest municipal neighbor to the west, Keene, and innumerable cities to the south, including Lowell and Boston, have already adopted Zoning ordinances and have found them helpful. It means for them an orderly growth which will assure more beautiful cities and will stabilize realty investments.

The need of an equitable and suitable zoning plan for this city has been evident, for some time, to those who would upbuild Nashua along lines of comprehensive planning and would provide for a greater city in the future. It would direct development along sound and reasonable lines. It would furnish an added measure of protection for health and safety. It would make for greater convenience and satisfaction and advance the general welfare. It would protect the poor man as well as the rich man in the security of his home and property. Unquestionably, zoning fixes property prices and controls mortgage values. It helps sell a city to itself as well as to outsiders.

Zoning is not hide bound; it is pliable and subject to change as conditions warrant without affecting values. It affords security to homes and existing business and industry. It provides for expansion and the change of boundaries. It prevents nuisances and invasion of personal and property rights. In short it will make a beautiful city more beautiful. It will develop and direct business in the right locations along proper channels, increase new construction, and guarantee, to the home maker, the business man and the manufacturer, protection for his property.

I would urge upon this Honorable Board a study of Zoning and the passage of a reasonable zoning ordinance which would carry with it the power to appoint a Zoning Commission. I would further recommend a sufficient sum of money be appropriated to enable a Commission to prepare a Zoning Plan and obtain expert advice, the Commission to serve without compensation.

Street Names and Numbering

A well ordered and well arranged City should not have duplicate street names. In our community there are a number of instances where streets, far apart, have similar or almost similar names. Such names cause much confusion to tradesmen, strangers, mail carriers and in the preparation of titles to property.

I would suggest that the abutters, on those streets, and the Board of Public Works confer and correct this duplication of names.

Another matter which calls for rectification is the street numbering system. Numbering mix ups are general on many streets and will get worse as the city grows. There are streets which do not provide enough numbers for entrances to buildings. Use is often made of fractional numbers and the alphabet.

To overcome this unsatisfactory arrangement a street numbering ordinance should be framed, based upon street frontage and varying in frontage allowance as it pertains to the mercantile or residential sections. This would amply provide for the developed as well as the undeveloped parts of the city.

This work could be gradually performed by the Engineering Department with little or no expense to the city or the abutters and with a minimum of inconvenience.

75th Anniversary

The "Diamond Anniversary" of the incorporation of the city of Nashua was celebrated July 3rd to July 7th, 1928. The tale of old and new Nashua was portrayed in historical pageant and story. Impressed upon our citizens and visitors alike were the virility and progressiveness of this City. The Committee, the large cast and the whole ensemble through this presentation left an impress and pride with us which will last indefinitely.

The civic parade on July 4th will long be remembered for its uniqueness, its artistic and utilitarian conceptions. It told in the long line of men and floats, "fair adventure, ancient pleasures, dreams and deeds of other men", of what the fathers wrought and the sons perfected. This demonstration was an outstanding feature of our birthday. The Historical exhibit, the Historical exercises in prose and poetry, and the week's carnival and fireworks were worth the time and effort put into them by the excellent committees and the public, and will be an incentive for the coming generation to work for the city of their birth and adoption.

Municipal Building — Veterans' Home

The Veterans of Foreign Wars, the Spanish War Veterans and their auxiliaries have in the past been content with little aid from the City. We all can remember when we pledged our first consideration to the "soldier boys" as they marched away to defend this nation for you and me. We cheered and hailed them as heroes and now in the passing years we must not forget them. The old Pearl St. school house, small and inadequate as it is, they called home. The narrowness and short comings of these quarters were so apparent that your Honorable Board ordered that additional accommodation be provided, so today we have completed a building satisfactory to these men of war and the women who sustained them. I know they realize this government wishes them contentment and happiness in their new community armory and they in return appreciate what a grateful city has done for them.

School Department

The Board of Education has made an honest effort to live within its appropriation and I feel that its curtailment of expenses is appreciated. The large enrollment in the Junior High School in 1925 and 1926 was brought about by the changes necessary to create this branch of education and it is thought these classes will remain nearly stationary for some time.

The enrollment in the High School has doubled in the last decade showing that young people appreciate the advantage of a high school education. The new rooms in the

High School provided by the Buildings Committee this year will provide sufficient accommodation for some time to come.

There has been a slight decrease in the enrollment in the public schools from 1927 of 23 pupils and a very small increase in cost per pupil over 1927 of about 12 cents.

The attendance in the Palm St. school section has fallen off a little last term, but nevertheless, renting school space is still necessary to take care of the school needs in that neighborhood.

To meet the costs of additional teachers and to meet the obligation of automatic adjustments in salaries the Board of Education will ask for a larger appropriation this year.

BOARD OF PUBLIC WORKS

Canal St. Bridge

January 1st, 1928 the Board of Public Works was faced with a closed Canal Street bridge. The abutments to this bridge were damaged by the flood of November 1927. The Board of Public Works of 1927 planned for the construction of a new cement arch bridge and the Board of 1928 concurred.

Your Board authorized a bond issue of \$175,000.00 for bridge, approaches and other changes. The bridge contract was awarded to the Fred T. Ley & Co. Inc. The approaches, sidewalks and other improvements were to be done by the city. A bonus was offered the Ley Co. if the bridge would be completed before a specified time. The Contractors bent every effort to expedite the reopening of Canal Street and they were successful in completing their part of the job thirty days ahead of contract requirements and the Board willingly approved the payment of the bonus. This work was performed for \$3911.66 less than the estimated cost.

State Aid

Nashua has asked for aid from the State of New Hampshire for damages to the Canal Street bridge during the flood of November 1927.

Favorable action was not taken on this because the Governor and Council promulgated a rule that they would assist places whose damage would be in excess of 2-5 of one per cent of valuation. Disbursements were left entirely in

the hands of the Governor and Council and it is equally true that when the flood relief bill was passed it was with the understanding that damages would be paid from the revenue obtained from the increased gas tax to all communities which were damaged. Nashua's Canal Street bridge was damaged to the extent of \$40,000. Nashua pays its regular tax and it also pays the fixed gas tax and the super tax for flood repairs. It does seem that it is only fair and equitable that the State should reimburse the City as the State itself received over \$600,000. in Federal Aid.

The Board of Public Works will renew the application for assistance in the rebuilding of the Canal Street bridge.

East Pearl Street

In 1926 the Board of Aldermen established new street lines widening a part of East Pearl Street. Some abutters refused their consent and this prevented widening all the way to Temple Street. There was litigation over the cutting down of trees and the elimination of street railway tracks. In the meantime the roadway and sidewalk of this main artery were in a deplorable condition. The Board of Public Works for 1928 considered further delay in repairing this street unfair to the travelling public. Accordingly the matter was reopened and the objecting abutters were interviewed. A few did not wish to have any of their land taken and the Board not desirous of further difficulty or delay ordered that the street be repaved, sidewalks laid and the whole put into first class condition for a number of years.

The case of the City vs. the Nashua Street Railway regarding the rails in this street is now before the Supreme Court for a decision.

Milford Highway

Milford Highway between Blood's Crossing Road and the Town line was reconstructed, repaired and roadway widened.

Permanent Highways

Much permanent highway work was done on Scripture, Worcester, Beard, Fairway, Cross, Dow and other streets.

Sidewalks

This year there was added to the cement sidewalk mileage 3.33 miles of sidewalks.

Sewers

New sewers were laid in Pasadena Avenue, Raymond Street, Prescott Street, Balcom Street, Orchard Avenue, Haines Street, Fossa Avenue, Van Buren and Jackson Streets and Hill Street.

Maintenance

The usual maintenance of roads, walks and sewers was done in an efficient manner.

Much less money was spent this year than formerly and the department is gradually wiping out many overhangs as it is the wish of the Board to see January 1st, 1929 the accumulated obligations met and cleaned up. When the accounts are finally made up the Board is confident that the financial showing of the Department will be gratifying.

Fire Department

The Fire Department maintained its good record of efficiency and protection during the year. The Commission by careful oversight of expenditures was able to purchase out of its regular appropriation a closed car for uses of the chief. This was greatly needed.

Police Department

The police Department during the year has been ever alert in the protection of life and property. Officer James F. Roche sacrificed his life while in discharge of duty. An armed robber invaded the city under cover of darkness and was intercepted in his intention to commit burglary and possible murder. Officer Roche met the emergency and killed the outlaw but was fatally wounded.

Mrs. Elizabeth J. Roche, widow, on behalf of herself and minor children petitions, under the law, for a pension. This application has been recommended by the Police Commission.

The City Solicitor's opinion is that—"The Board of Aldermen may, in their discretion, grant Elizabeth Roche, the petitioner a pension not to exceed one half of the yearly compensation of James Roche at the time of his death, . . . Such pension may be granted for not more than one year at a time."

The Police Commission is desirous that this Board consider traffic conditions and that a study be made of the feasibility as well as the practicability of automatic signals at several street intersections. The Board has made a further application that money be provided for changes at the Police Station.

Nashua Public Library

The Trustees of Nashua's Public Library have striven to keep the standard of this institution as high as any in a city of like population. They are intensely interested in the success of this branch of community activity.

The ever increasing circulation, the branch library, and other methods of dissemination of knowledge and cultural acquirements have reached the stage where book additions are necessary and special help is required. The Trustees also state that the Library building needs repairs and that the reading room should be redecorated.

Showing the growth of the library in one year: the total circulation for 1927 was 149,661 volumes and the estimated circulation for 1928 is over 170,000, an increase in one year of more than 13 per cent, and this rate of increase has been going on for several years. The yearly revenue of the Public Library, including appropriation, for a number of years has been slightly over \$15,000.

To rehabilitate the library building, make the necessary book increase and improve the service and efficiency of the staff an added appropriation will be necessary. I would recommend a gradual increase in the budget so that in a few years the library building and equipment will be a source of pride and satisfaction to the tax payers and the reading public, as well as to the Trustees.

Board of Health

Nashua has been fortunate in being free from any serious epidemic this year. A few cases of diphtheria originating in a nearby city were traced and further contagion prevented by the activities of this Board. Much use was made of Toxin-Anti-Toxin to prevent a spread of this dread disease. The many cases of scarlet fever during the year made it necessary for the Board to resort to the so-called "Dick" Test, as a preventative.

A new garbage truck was purchased to replace an old and worn out one.

Cemetaries

Our cemetaries are under the control of trustees selected by this Board. It is clearly apparent that the trustees and their predecessors have managed "God's acres" with care, foresight and prudence. All the upkeep does not fall upon the taxpayers as lot owners and benevolent persons have contributed to perpetual care and to the beautifying and permanent improvement of grounds and structures. The total appropriation for all cemeteries is small in comparison with the work accomplished.

Edgewood Cemetery

In 1928 your Board made a special appropriation to the Trustees of Edgewood Cemetery for a new iron fence along Amherst Street and Cushing Avenue. The improvement fully justified the expenditure.

During the year Mrs. Ella F. Anderson gave to this cemetery the beautiful "Anderson Memorial Chapel." In design and construction it will be one of the outstanding permanent Memorials ever placed in a cemetery in New England. We all unite in expressing our appreciation to this public spirited woman.

Woodlawn Cemetery

This year the Trustes of Woodlawn Cemetery will ask for a special appropriation for a substantial iron fence along West Hollis Street. The present wooden fence is old and out of repair. It is believed that good fencing of cemeteries is a wise investment as it protects the graves from careless or wanton desecration.

Suburban Cemeteries

No one can note our scattered Suburban Cemeteries, in which rest many of the early settlers, without recognizing the careful oversight by the Trustees. During the past year a small addition was made to Evergreen Cemetery by the purchase of a lot of land on South Chestnut Street.

Park Commission

The Park Commission is gradually improving our parks and commons. The results are most satisfactory consider-

ing the appropriation provided. The cooperation between this department and others has been genuine. Working understandings and agreements are proving harmonious with the Recreation Commission, the Carnival Committee, the High School Athletic Committee and with others. This Commission has been ready, at all times, to aid and assist the public in getting the most out of the City's open spaces.

Recreation Commission

This Commission worked energetically this year to afford recreational facilities. The playgrounds, swimming pool, skating rinks and tennis Courts afforded large numbers, of young and old, an opportunity for healthful outdoor enjoyment and sport.

City Solicitor

Our City Solicitor this year has given freely of his time in guiding the city departments along legal and lawful lines and in the settlement of several vexed questions he has been very successful.

Other Departments

Other and minor departments have worked in unison for the public welfare.

Conclusion

This year several departments were overdrawn. Such occurrences are not good administration, good practice or fair to the departments which scrupulously live within their allowance. It is only in case of dire necessity or an emergency that such a policy should be pursued. On these occasions the Finance Committee should be consulted and its advice taken to see if there is not some way of providing the funds. If heads of Departments are permitted to overdraw and spend beyond their appropriation they are usurping the appropriating and taxing authority of the city.

The year has been a prosperous and successful one for Nashua and I thank the Honorable Board of Aldermen and the City officials for their uniform help and courtesy in the conduct of the City's business.

**CITY GOVERNMENT OF
THE CITY OF NASHUA, NEW HAMPSHIRE
FOR THE YEARS 1928-1929**

MAYOR

Honorable William F. Sullivan
Residence 3 East Dunstable Road
Elected at the General Municipal Election December 6, 1927
Term expires December 31, 1929

Resolutions and Ordinances

RESOLUTION

ADOPTING RULES AND FIXING THE TIME FOR
HOLDING REGULAR MEETINGS

CITY OF NASHUA

In the year of Our Lord One Thousand Nine Hundred and
Twenty-eight

RESOLVED, By the Board of Aldermen of the City of
Nashua:

That the rules of the Board of Aldermen for 1927 be and
the same are hereby adopted for 1928 and that the time for
holding regular meetings be on the second and fourth Tues-
days of each month at eight (8) o'clock in the afternoon.

Passed January 2, 1928.

Approved January 4, 1928.

Attest:

ARTHUR L. CYR,
City Clerk.

RESOLUTION

AUTHORIZING THE APPOINTMENT OF AN ADVISORY
COMMITTEE TO INVESTIGATE THE MATTER OF
CITY HALL

CITY OF NASHUA

In the year of Our Lord One Thousand Nine Hundred and
Twenty-eight

RESOLVED, By the Board of Aldermen of the City of
Nashua:

That the Mayor hereby is authorized and instructed to appoint, subject to confirmation by the Board of Aldermen, an Advisory Committee of Nine Citizens whose duty it shall be to investigate the structural condition of City Hall, to obtain and report estimates of cost of remodelling City Hall and to further report on the feasibility and economy of erecting a new City Hall on the present site or at some other location. Said Committee may hold hearings, if necessary. It shall compile information, examine plans and do anything else necessary or pertinent with the view of assisting the Mayor and Board of Aldermen to decide whether it is the better plan to remodel City Hall or build a new City Hall.

Said Committee is instructed to make its report, to the Mayor and Board of Aldermen, on or before July first nineteen hundred and twenty-eight.

Passed January 24, 1928.

Approved January 25, 1928.

Attest:

ARTHUR L. CYR,

City Clerk.

RESOLUTION

AUTHORIZING THE APPOINTMENT OF A COMMITTEE
TO ARRANGE FOR CELEBRATING THE SEVENTY
FIFTH ANNIVERSARY OF THE CITY'S
CORPORATE EXISTENCE

CITY OF NASHUA

In the year of Our Lord One Thousand Nine Hundred and
Twenty-eight

RESOLVED, By the Board of Aldermen of the City of
Nashua:

That a Committee of five consisting of the Mayor, the President of the Board of Aldermen and three Aldermen to be appointed by the President of the Board be and hereby are authorized appointed.

This Committee shall be empowered and authorized to appoint a General Citizens' Committee to act and co-operate

with it as a Joint Committee to do the necessary things to celebrate the seventy fifth anniversary of the City's Coporate existence.

Passed January 24, 1928.

Approved January 25, 1928.

Attest:

ARTHUR L. CYR,
City Clerk.

RESOLUTION

AUTHORIZING THE FINANCE COMMITTEE TO
BORROW MONEY IN ANTICIPATION OF TAXES

CITY OF NASHUA

In the year of Our Lord One Thousand Nine Hundred and
Twenty-eight

RESOLVED, By the Board of Aldermen of the City of
Nashua:

That the Finance Committee be and they hereby are authorized and directed to borrow, from time to time during the current municipal year, beginning January 1, 1928 a sum or sums not exceeding One Million (\$1,000,000 00) Dollars for the purpose of meeting current expenses of the City, and the Mayor and Treasurer are hereby authorized to execute and issue a negotiable note or notes of the City of Nashua therefor.

Every such note shall become due and payable within one (1) year from the date of the loan for which it is issued is incurred, but no such shall be payable on demand, or shall be valid unless authenticated by the certificate of the First National Bank of Boston.

All debts incurred under authority of this vote shall be paid from the taxes of said current municipal year.

Passed January 2, 1928.

Approved January 4, 1928.

Attest:

ARTHUR L. CYR,
City Clerk.

RESOLUTION

APPOINTING A COMMITTEE OF FOUR ALDERMEN
TO SECURE THE SERVICES OF AN ENGINEER

CITY OF NASHUA

In the year of Our Lord One Thousand Nine Hundred and
Twenty-eight

RESOLVED, By the Board of Aldermen of the City of
Nashua:

That before any further action is taken on the Canal
Street bridge, that the President of the Board of Aldermen
appoint a committee of four aldermen, and the said committee
have the power to secure the services of a disinterested
engineer to go over the Canal St. bridge, making an inspection
thereof and report his findings in writing to the Board of
thereof and report his findings in writing to the Board and
appear before them at the next regular meeting of the Board
of Aldermen, so that any questions may be asked him by the
said Board. The expenses of the foregoing to be borne by
the City.

Passed February 14, 1928.

Approved February 15, 1928.

Attest:

ARTHUR L. CYR,
City Clerk.

RESOLUTION

REQUESTING STATE AID FOR REBUILDING OR
REPAIRING THE CANAL STREET BRIDGE

CITY OF NASHUA

In the year of Our Lord One Thousand Nine Hundred and
Twenty-eight

RESOLVED, By the Board of Aldermen of the City of
Nashua:

That His Excellency the Governor and the Honorable
Council of the State of New Hampshire be and they hereby

are requested to appropriate such sum or sums as may be available therefor toward repairing or rebuilding the Canal Street Bridge, so-called, in the City of Nashua.

This request becomes necessary through damage done to the bridge during the freshet of Nov. 4, 5 and 6, 1927.

Passed February 14, 1928.

Approved February 15, 1928.

Attest:

ARTHUR L. CYR,
City Clerk.

RESOLUTION

AUTHORIZING THE MAYOR TO SIGN THE CONTRACT
FOR PRINTING THE CITY REPORT

CITY OF NASHUA

In the year of Our Lord One Thousand Nine Hundred and
Twenty-eight

RESOLVED, By the Board of Aldermen of the City of
Nashua:

That the Mayor be and he is hereby authorized to sign a
contract with Emile E. Marquis for printing and binding the
City Report for 1927.

Passed March 27, 1928.

Approved March 29, 1928.

Attest:

ARTHUR L. CYR,
City Clerk.

CITY OF NASHUA

In the year of Our Lord One Thousand Nine Hundred and
Twenty-eight

AN ORDINANCE

CREATING A BOARD FOR THE EXAMINATION
OF PLUMBERS

BE IT ORDAINED, BY the Board of Aldermen of the
City of Nashua:

Section 1. Agreeably to the Provisions of Chapter 153 of the Public Laws of New Hampshire a Board for the examination of Plumbers is hereby created. Said Board shall consist of a Member of the Board of Health, the City Engineer, ex-officio, and a Plumber of not less than five years active and continual service.

The appointed members of said Board shall be appointed by the Mayor and serve without pay for terms of 2 years each.

The designated member shall serve during his term of office without pay.

Passed March 27, 1928.

Approved March 29, 1928.

Attest:

ARTHUR L. CYR,
City Clerk.

RESOLUTION

RESCINDING THE ACTION TAKEN BY THE BOARD
OF ALDERMEN FEB. 8, 1927, IN RESPECT TO
ACCEPTING THE STARK HOMESTEAD, SO-
CALLED

CITY OF NASHUA

In the year of Our Lord One Thousand Nine Hundred and
Twenty-eight

RESOLVED, By the Board of Aldermen of the City of
Nashua:

WHEREAS, by the petition of the Stark Improvement Corporation filed with the Board of Aldermen on the 13th day of March, 1928, it appears that the said Stark Improvement Corporation believe themselves unable to raise sufficient funds for the discharge of the mortgage of \$10,000. upon the property offered to, and accepted by the City of Nashua by vote of its Board of Aldermen on the 8th day of February, 1927, and approved by the then Mayor, and

WHEREAS, the said Stark Improvement Corporation by its said petition has requested the Board of Aldermen to revoke its acceptance of the gift of said property,

NOW THEREFORE, BE IT RESOLVED, that the City of Nashua hereby revokes its acceptance of the said gift, hereby relieving said Stark Improvement Corporation from any offer of said property to the City heretofore made.

Passed March 27, 1928.

Approved March 29, 1928.

Attest:

ARTHUR L. CYR,
City Clerk.

RESOLUTION

AUTHORIZING THE MAYOR AND TREASURER TO
ISSUE BONDS IN THE AMOUNT OF ONE HUNDRED
AND SEVENTY FIVE THOUSAND DOLLARS
(\$175,000) TO PAY FOR THE CONSTRUCTION
OF A RE-INFORCED CEMENT BRIDGE
OVER THE NASHUA RIVER AT
CANAL AND BRIDGE STREETS

CITY OF NASHUA

In the year of Our Lord One Thousand Nine Hundred and
Twenty-eight

RESOLVED, By the Board of Aldermen of the City of
Nashua:

Pursuant to the Provisions of Chapter 59 of the New Hampshire Public Laws 1925 and to the provisions of a Special Act which was approved May 4, 1923, entitled, "An Act empowering the City of Nashua to incur debt to the amount of six per cent of its valuation", the Mayor and Treasurer are hereby authorized to issue and sell, under the direction of the Finance Committee, bonds of the City of Nashua in the aggregate principal sum of One Hundred and Seventy Five Thousand Dollars (\$175,000).

Said bonds are to be issued for the purpose of paying for the construction of a Twin Arch re-inforced cement bridge over the Nashua River at Canal and Bridge Streets in the City of Nashua and the proceeds of the sale of said bonds are hereby appropriated for that purpose.

Said bonds shall be payable to bearer, shall be dated May 1, 1928, shall bear the City Seal, shall be signed by the Mayor

and countersigned by the Treasurer and the said bonds shall be for the sum of One Thousand (\$1,000) Dollars each and shall be due and payable serially each year as follows: Ten bonds of \$1,000. each in one year, ten bonds of \$1,000. each in two years, ten bonds of \$1,000. each in three years, ten bonds of \$1,000. each in four years, ten bonds of \$1,000. each in five years, nine bonds of \$1,000. each in six years, nine bonds of \$1,000. each in seven years, nine bonds of \$1,000. each in eight years, nine bonds of \$1,000. each in nine years, nine bonds of \$1,000. each in ten years and eight bonds of \$1,000. each in eleven years, twelve years, thirteen years, fourteen years, fifteen years, sixteen years, seventeen years, eighteen years, nineteen years and twenty years respectively from the date thereof; shall bear interest at a rate to be established by the Treasurer, not exceeding four and one quarter per cent per annum, said interest shall be payable semi-annually on the first day of May and the first day of November in each year.

Both principal and interest shall be payable in gold coin of the United States of America of the present standard of weight and fineness at the office of the Treasurer in Nashua, New Hampshire, or, at holders option at the First National Bank of Boston, Boston, Massachusetts.

The coupons shall bear the fac-simile signature of the Treasurer. None of said bonds shall be obligatory without the authenticating certificate of said the First National Bank of Boston endorsed thereon.

Passed April 10, 1928.

Approved April 11, 1928.

Attest:

ARTHUR L. CYR, City Clerk.

RESOLUTION

AUTHORIZING THE MAYOR TO SIGN A CERTAIN
AGREEMENT AND QUIT CLAIM

CITY OF NASHUA

In the year of Our Lord One Thousand Nine Hundred and
Twenty-eight

RESOLVED, By the Board of Aldermen of the City of
Nashua:

THAT, WHEREAS, a dispute has arisen between John
H. Bowers of Merrimac, New Hampshire, and the City of

Nashua over the boundary line between their respective properties, and,

WHEREAS, a new boundary line has been agreed upon by the respective parties, and,

WHEREAS, in order to establish ownership of the land on each side of the newly established boundary, it is necessary for the City to quitclaim its interest in and to a certain fifteen (15) foot passageway in the rear of the Bowers Block, so called, and to a small triangular parcel of land lying immediately south of the newly established land, and adjoining a twenty (20) foot lane, so called, and,

WHEREAS, an Agreement has this day been drawn between the respective parties,

NOW, THEREFORE, be it resolved that the Honorable William F. Sullivan, Mayor of Nashua, be and hereby is authorized to sign the said Agreement, establishing said new boundary, and quitclaiming to said Bowers any and all rights which the City may have in the aforesaid fifteen (15) foot passageway, and in the said triangular piece of land.

Passed June 12, 1928.

Approved June 15, 1928.

Attest:

ARTHUR L. CYR,
City Clerk.

RESOLUTION

IN RELATION TO THE COLLECTION OF POLL TAXES

CITY OF NASHUA

In the year of Our Lord One Thousand Nine Hundred and
Twenty-eight

RESOLVED, By the Board of Aldermen of the City of Nashua:

That the collector of taxes be and hereby is authorized to forward during the month of July 1928, a notice to each and every poll tax payer of the City of Nashua, notifying each poll tax payer that the poll tax for 1928 must be paid on or before August 1st, 1928, and for all poll taxes not

paid by said date to charge costs amounting to 20 cents for said notice, the said notice to consist of the publication of this resolution in the newspapers of this city in three separate issues during the month of July and RESOLVED FURTHER that the collector of taxes be and hereby is authorized to proceed to distrain for all poll taxes not paid by the first day of August 1928.

Passed June 12, 1928.

Approved June 15, 1928.

RESOLUTION

AUTHORIZING THE MAYOR AND TREASURER TO
ISSUE BONDS IN THE AMOUNT OR THIRTY-FIVE
THOUSAND (\$35,000.) DOLLARS TO PAY FOR
THE CONSTRUCTION OF SEWERS IN
PUBLIC STREETS IN NASHUA

CITY OF NASHUA

In the year of Our Lord One Thousand Nine Hundred and
Twenty-eight

RESOLVED, By the Board of Aldermen of the City of
Nashua:

Pursuant to the provisions of Chapter 59 of the New Hampshire Public Laws 1925 and to the provisions of a Special Act which was approved May 4, 1923, entitled, "An Act empowering the City of Nashua to incur debt to the amount of six per cent of its valuation", the Mayor and Treasurer are hereby authorized to issue and sell, under the direction of the Finance Committee, bonds of the City of Nashua in the aggregate principal sum of Thirty-Five Thousand (\$35,000) Dollars.

Said bonds are to be issued for the purpose of paying for the installation and construction of public sewers in certain public streets in Nashua, namely, Prescott Street, Raymond Street, Orchard Avenue, Pasadena Avenue, King Street and in divers other streets within the City of Nashua and the proceeds of the sale of said bonds are hereby appropriated for that purpose.

Said bonds shall be payable to bearer, shall be dated August 1, 1928, shall bear the City Seal, shall be signed by the Mayor and countersigned by the Treasurer and the said bonds shall be for the sum of One Thousand (\$1,000) Dollars each and shall be due and payable serially each year as follows: Three bonds of \$1,000. each in one year, three bonds of \$1,000. each in two years, three bonds of \$1,000. each in three years, three bonds of \$1,000. each in four years, three bonds of \$1,000. each in five years, three bonds of \$1,000. each in six years, three bonds of \$1,000. each in seven years, three bonds of \$1,000. each in eight years, three bonds of \$1,000. each in nine years, three bonds of \$1,000. each in ten years and one bond of \$1,000. each in eleven, twelve, thirteen, fourteen and fifteen years respectively from the date thereof; shall bear interest at a rate to be established by the Treasurer not exceeding four and one half per cent per annum, said interest shall be payable semi-annually on the first day of February and the first day of August in each year.

Both principal and interest shall be payable in gold coin of the United States of America of the present standard of weight and fineness at the office of the Treasurer in Nashua, New Hampshire, or, at holder's option at the First National Bank of Boston, Boston, Mass. The coupons shall bear the fac-similie signature of the Treasurer. None of said bonds shall be obligatory without the authenticating certificate of said the First National Bank of Boston endorsed thereon.

Passed July 10, 1928.

Approved July 14, 1928.

Attest:

ARTHUR L. CYR,
City Clerk.

Twenty-eight

AN ORDINANCE

REGULATING THE SLAUGHTERING, INSPECTION,
AND SALE OF MEATS AND MEAT PRODUCTS

BE IT ORDAINED, By the Board of Aldermen of the
City of Nashua:

Slaughter-Houses

Every slaughterhouse hereafter constructed or maintained within the limits of the City of Nashua, New Hampshire, must comply with the following regulations, unless

otherwise specified and ordered by the Board of Health:

1. The location and plans must be approved in writing by the Board of Health before construction or alterations begins.

2. The floors must be of brick, cement, or some other impervious material, properly sloped to a well-trapped, permanently grated inlet having a direct connection with a sewer or cesspool.

3. The walls must be covered to a height of not less than 7 feet with some impervious material.

4. An adequate water supply, both hot and cold, must be provided and pipes or hoses so arranged as to permit thorough washing of walls and floors.

5. Suitable sinks with hot and cold water must be provided.

6. Properly ventilated cooling and storage rooms must be provided — these rooms must be kept clean and must not contain any impure or unwholesome substance.

7. All refuse and waste material must be deposited, immediately after slaughtering, in tightly covered, movable, metal or hardwood receptacles. This material must be removed from the premises daily and burned or otherwise destroyed as may be directed by the Board of Health.

8. All hides, bones, and fat must be removed daily.

9. All rooms must be properly ventilated, lighted, and from May 1 to October 15 so screened as to prevent the entrance of flies or other insects.

10. The tables and other equipment must be of smooth, hard material and kept in a clean and sanitary condition.

11. The slaughterhouse and surroundings must be kept in a clean and sanitary condition and practical precautions must be taken to keep the premises free from rats and mice.

12. All apparatus, containers, implements, and utensils must be thoroughly cleaned with boiling water or sterilized with live steam or some sterilizing agent approved by the Board of Health, after each day's use.

13. A water-closet which must be kept clean, sanitary, and in good repair, and wash-room furnished with soap, running hot and cold water and individual towels must be furnished.

14. A notice shall be conspicuously posted in the water-closet and washroom directing employees to thoroughly wash

their hands before leaving and immediately before commencing work.

15. Meat must be placed on racks, hooks, tables, or in suitable containers, — never on the floor.

16. No person who is affected with a disease declared by the State Board of Health to be dangerous to the public health shall be engage in slaughtering or handling of meats nor shall such person be permitted to loiter about the premises where such business is conducted.

17. The proprietor or lessee of each slaughterhouse shall inform the inspector of the day when animals are to be killed. The inspector shall designate the hour.

18. Every person, firm, corporation, or company conducting a slaughterhouse within the City of Nashua must obtain from the Board of Health on or before June first of each year, a license which shall not be transferable and which may be revoked for violation of these regulations.

Inspection of Animals and Meat

1. The slaughtering and dressing of cattle, swine, or sheep, except for private use, shall not be allowed within the limits of the City, except in authorized slaughterhouses.

2. No cattle, swine, or sheep shall be killed for human food while in a diseased or exhausted condition.

3. No calf less than 4 weeks old or less than 40 lbs. dressed weight, no pig less than 5 weeks old, and no lamb less than 8 weeks old, shall be killed for human food nor any part thereof offered for sale within the city.

4. No beef, pork, veal, mutton, or lamb shall be sold or offered for sale for food purposes unless the animal from which the meat was taken was examined both before and after slaughter by a meat inspector appointed by and in the employ of the United States Government, a state department, or a municipal department and passed as fit for food, and stamped with a proper identification mark or marks, according to the system adopted by the United States Bureau of Animal Industry.

This shall be construed to apply to meats, meat products, and animal casings used in the manufacture and preparation of sausage meat, meat sausages, and chopped meats.

Carcasses shall be stamped as follows:

Each side of beef nine times: eight times on the outside, and once on the inside; once on the outside of neck, once on

shoulder, once on shank, once on brisket, once on loin, once on flank, once on round once on cod; on the inside once on fat over kidney.

Each side of veal twice: once on outside of each quarter.

Each carcass of swine seven times: once on head between ears, once on outside of each quarter, once on each loin.

Each carcass of sheep or lamb twice: once on loin, once on crop.

5. Any carcass, parts of carcass, meats or organs found to be unsound, unhealthful, unwholesome, or otherwise unfit for human food shall be condemned and shall be tanked, incinerated, or denatured under the direct supervision of the inspector.

Poultry

1. The business of slaughtering chickens, geese, ducks, turkeys, pigeons, or other fowl shall not be conducted nor shall any place therefor be established without a license issued by the Board of Health. This license must be renewed on or before June 1st of each year, and may be revoked for any violation of these regulations.

2. All rooms where the business of slaughtering fowls is conducted, unless otherwise specified and ordered by the Board of Health, must conform to the following specifications:

- (1) must be kept in a clean and sanitary condition;
- (2) floors and sidewalls to a height of 7 feet must be of smooth, hard, impervious material;
- (3) ventilation must be adequate;
- (4) lighting must be adequate;
- (5) crates and cages in which fowls are stored must be emptied and cleaned every 48 hours;
- (6) killing trough must be of impervious material and must discharge over a properly trapped sewer connection;
- (7) poultry shall not be allowed at large upon the premises;
- (8) adequate toilet facilities, properly located, must be provided.

3. All refuse and waste material must be deposited immediately in tightly covered, movable, metal or hardwood receptacles — this material must be removed from the premises at the close of each day's work.

4. No live chickens, geese, ducks, turkeys, pigeons, or other fowls shall be brought into, kept, stored, offered for sale or sold in any store, cellar, or building used wholly or in part for dwelling purposes.

Sausage

1. The business of manufacturing or preparing sausages or smoking or preserving meat or fish shall not be conducted nor shall any place therefor be hereafter established within the City of Nashua without first obtaining a permit or a license therefor from the Board of Health. All permits may at any time be revoked upon proof of the violation of any of the regulations of this ordinance. All licenses issued shall terminate on the 31st of May of each year and may at any time be suspended or revoked by the Board of Health for violation of any laws of this state, any rules or regulations of the State Board of Health, or of any section whatsoever of this ordinance.

2. The floors, walls, and ceilings of buildings or rooms hereafter erected or altered for the conduct of such business must be of some smooth, hard substance that will permit rapid and thorough cleaning. The floors must be graded to drains over properly trapped sewer connections.

3. A sufficient number of water-closets, which must be kept clean, sanitary, and in good repair, and a washroom, with running hot and cold water, soap, and individual towels must be provided; water-closet doors must be provided with a self-closing devise.

4. Suitable sinks, with running hot and cold water must be provided.

5. All doors, windows, and other openings must be properly screened from May 1 to October 15. Screen doors must be equipped with self-closing devices.

6. All apparatus, containers, implements, and utensils must be thoroughly cleaned with hot water and soap and rinsed after each day's use, and must be kept covered when not in use.

7. Tables and stands must be of smooth, hard material and kept in a clean and sanitary condition.

8. Meats, meat products, animal casings, and other materials used in the preparation and manufacture of sausage meat, meat sausages, and chopped meats must conform to the

provisions of these regulations and to the standards of purity established by the pure food laws of the State of New Hampshire.

9. The only animal casings that may be used as containers or any meat or meat products are those from cattle, sheep, swine, or goats. Casings must be carefully washed and thoroughly flushed with clean water. Casings which show any diseased condition or infestation with parasites shall be rejected.

10. No meat or meat product shall contain any substance which impairs its wholesomeness, nor contain, except as permitted by sections 11 and 12, any dye, preservative, or added chemical.

11. There may be added to meat and meat products common salt, sugar, wood smoke, cider vinegar, spirit vinegar, pure spices, saltpeter.

12. Dyes may be used for coloring sausage casings or other casings by dipping or application provided the character of the casing is such that the dye does not penetrate into the meat food product contained in the casing.

13. When coloring matter is used in the preparation of casings, as provided in section 12, the product shall be marked with the phrase "artificially colored."

14. When cereal not in excess of 2% is added to sausages, the product shall be marked with the phrase "cereal added".

15. Sausages shall not contain cereal in excess of 2%.

16. Water or ice shall not be added to sausage except for the purpose of facilitating the grinding, chopping or mixing, in which case the added water or ice shall not exceed 3%, except that sausage of the class which are smoked or cooked, such Frankfurt style, Vienne style, and Bologna style, may contain added water in excess of 3%, but not in excess of an amount necessary to make the product palatable.

17. When water in excess of 3% and cereal are added to certain kinds of sausage, as provided in paragraphs 15 and 16, the product shall be marked "sausage, water, and cereal". When water, but no cereal, is added to certain kinds of sausage, as provided in 16, the addition of water need not be stated.

18. Such terms as "country," "farm," and the like, shall not be used on labels in connection with meat and products

unless such meat and products are actually prepared in the country or on the farm. However, if the articles are prepared in the same way as in the country or on the farm, these terms, if qualified by the word "style," in the same size and style of lettering, may be used. Sausage containing cereal shall not be labeled "country style."

19. A meat food product when composed of more than one ingredient shall not bear a label with the name stating or indicating that the product is a substance which is not the principal ingredient contained therein, even though such name be an established trade name. The term "principal ingredient" as used in this section, shall be construed to mean that such ingredient is equal to or exceeds in amount the other ingredients combined, exclusive of cereal and water. If the ingredients are stated on the labels, they shall appear in the order of their percentages. For example, sausage containing beef and pork shall not be labeled "pork sausage", but shall be labeled "pork and beef sausage," however, if the pork ingredient equals or exceeds 50% of the meat content, the sausage may be labeled "pork sausage, beef added." A product consisting of veal, pork, and beef, shall not be labeled "veal loaf," but may be designated as "veal, pork, and beef loaf." However if the veal ingredient is not less than 50% of the meat content of the product, the product may be labeled "veal loaf, pork and beef added," the words "pork" and "beef" to appear in the order of their percentages, as above indicated.

20. No article of a kind prepared customarily to be eaten without cooking shall contain any muscle tissue of pork unless the pork has been subjected to a temperature sufficient to destroy all trichinae.

22. Meat food products in animal casings, other than sausage, shall be branded with the name of the product, the statement "composed of," and the names of the ingredients arranged in the order of their percentages.

General Regulations

1. Stores and shops in which meats are stored or offered for sale shall be kept in a clean and sanitary condition.

2. All refuse and waste material must be deposited in water-tight metal or hardwood containers, which must be kept clean and sanitary.

3. Sawdust which has been used for the absorption of blood and other liquids, and all refuse, must be removed daily.

4. In retail markets, vats or containers used for the preparation or storage of corned meats must be constructed of a smooth, hard material, and must be thoroughly cleaned both inside and outside and all solutions renewed as often as may be necessary to keep both the container and solution in a clean and sanitary condition.

5. Apparatus, containers, blocks, tables, utensils and other equipment must be kept at all times in a clean and sanitary condition.

6. No meat or meat products shall be displayed except in a sanitary manner and so arranged that the meat or meat products are protected from contamination.

7. Promiscuous handling of meats or meat products by prospective customers is hereby expressly forbidden.

8. Refrigerators or ice boxes must be kept clean and sanitary, and the compartments for the keeping or storage of meats or meats products must be used for no other purpose; fresh fruits and green vegetables excepted.

9. All employees or other persons engaged in the slaughtering or handling of meats or meat products must be attired in a cleanly manner and while so engaged wear a clean apron, preferable of rubber.

10. All employees or other persons engaged in the slaughtering or handling of meats or meat products must be free of diseases declared by the State Board of Health to be dangerous to the public health.

11. Smoking or chewing of tobacco in any form or spitting on the floor must not be allowed in any room or rooms used wholly or in part in the preparation and manufacture of meats or meat products, and signs calling attention to this regulation must be posted.

12. Any beef, veal, fish, fowls, pork, or other meats or meat products or materials used for human food, found upon inspection to be adulterated, tainted, unwholesome, or for any reason unfit for human food shall be condemned, seized, or destroyed as provided by law.

13. Slaughterhouses, sausage factories, markets, stores, shops, or other places where meat or meat products are

slaughtered prepared, sold, or offered for sale, shall be inspected at regular intervals or whenever it may be deemed necessary by the Board of Health or its authorized agent.

14. The Board of Health is hereby directed to provide necessary inspection service for the proper enforcement of these regulations. The inspector of animals and carcasses at the slaughterhouses shall receive for his services the following fees:

For inspecting each beef animal	\$0.50
For inspecting each hog animal25
For inspecting each calf animal25
For inspecting each lamb animal10

These fees shall be paid to the inspector by the corporations, company, or individual who leases or owns the slaughterhouse. The inspector of animals and carcasses shall make a monthly report to the Board of Health, stating the number of each kind of animal and carcass inspected and the amount of fees received for the same.

15. These regulations or any part thereof shall not be construed to prevent the slaughtering of animals or fowls, or the preparation of meat products, for personal use.

16. Any person, firm, company, or corporation violating any of the provisions of these regulations, or whoever hinders or obstructs any inspector in the pursuit of his lawful duties, shall be guilty of a misdemeanor, and upon conviction shall be punished by a fine not exceeding Ten Dollars.

Passed October 9, 1928.

Approved October 10, 1928.

ARTHUR L. CYR,
City Clerk.

RESOLUTION

AMENDING A RESOLUTION PASSED SEPTEMBER 11,
1928 AND APPROVED SEPTEMBER 14, 1928

CITY OF NASHUA

In the year of Our Lord One Thousand Nine Hundred and
Twenty-eight

RESOLVED, By the Board of Aldermen of the City of Nashua:

That the Resolution passed September 11, 1928 and approved September 14, 1928 be and hereby is amended by striking out the entire paragraph which reads as follows:

“Said bonds are to be issued for the purpose of paying for the construction of a Veterans’ Building, so-called, on Quincy Street in said Nashua and the proceeds of the sale of said bonds are hereby appropriated for that purpose.”

and substituting therefor the following:

“Said bonds are to be issued for the purpose of erecting a Municipal Building on Quincy Street in said Nashua, and the proceeds of the sale of said bonds are hereby appropriated for that purpose. Said Municipal Building shall be used under the direction of the Mayor and Board of Aldermen for public meetings and for such other lawful purposes as the Mayor and Board of Aldermen may from time to time authorize.”

Said Resolution passed September 11, 1928 in other respects is hereby ratified, confirmed and approved, except that the title thereto be amended by striking out the word “Veterans” and substituting therefor the word “Municipal”

Passed Oct. 9, 1928.

Approved Oct. 10, 1928.

CITY OF NASHUA

In the year of Our Lord One Thousand Nine Hundred and Twenty-eight

AN ORDINANCE

AMENDING CHAPTER 31 OF THE REVISED ORDINANCES ENTITLED “USE OF VEHICLES IN CITY STREETS”

BE IT ORDAINED, By the Board of Aldermen of the City of Nashua:

Amend Chapter 31 by inserting after Section 2 which shall be designated as Sub-Division 1 of said Section 2 the following:

1. No motor vehicle or horse-drawn vehicle shall be stationed and remain on the North side of Temple Street between South Street and Scripture Street.

No motor vehicle or horse-drawn vehicle shall be stationed and remain on the South side of Temple Street between South and Scripture Streets for a period exceeding one hour.

The foregoing regulations in this section shall be in effect week days only from 6:00 A. M. to 7:00 P. M.

Amend Chapter 31, by inserting after Section 14 which shall be designated as Sub-Division I and II of said Section 14, the following two sections:

- I. SOUTH STREET — South Street is designated as a one-way street and all parking therein shall be on the East side of the street, and for a period of not exceeding one hour. All vehicles operating along South Street shall enter from Worcester Street and travel in a Northerly direction.
11. SCRIPTURE STREET — Scripture Street is designated as a one-way street and all-parking therein shall be on the West side of the street, and for a period of not exceeding one hour. All vehicles operating along Scripture Street shall enter from Temple Street and travel in a Southerly direction.

Passed Oct. 23, 1928.

Approved Oct. 25, 1928.

Attest:

ARTHUR L. CYR,

City Clerk.

City Clerk.

RESOLUTION

EXEMPTING FROM ALL LOCAL TAXES FOR A PERIOD OF 5 YEARS THE MACHINERY AND STOCK IN TRADE OF THE PARKER HEEL CO.

CITY OF NASHUA

In the year of Our Lord One Thousand Nine Hundred and Twenty-eight

RESOLVED, By the Board of Aldermen of the City of Nashua:

WHEREAS the parker Heel Co. incorporated under the Laws of the State of New Hampshire proposes to put into operation a manufacturing establishment for the manufacture of heels of all kinds, shoes and shoe findings in the building situated at No. 9 Otterson Street in the City of Nashua.

WHEREAS said Parker Heel Co. will proceed with said establishment provided the City of Nashua contracts with it to abate local taxes upon its machinery, stock in trade and any additional buildings it may erect during said term of abatement of five years and it further intends and expects, if such contract is made, to request the City of Nashua at the end of four years, in accordance with the Statute covering this abatement, to extend said contract of abatement for a further period of five years so said term of abatement shall be in all ten years. Now

THEREFORE BE IT RESOLVED That the City of Nashua by vote of the Board of Aldermen, the Mayor concurring, hereby contracts and agrees with the said Parker Heel Co. to exempt from all local taxes the machinery, stock in trade and all buildings hereafter to be erected for a term of five taxable and assessable years which may be assessed upon said stock in trade, machinery and additional buildings of the said Parker Heel Co.

Passed Dec. 11, 1928.

Approved Dec. 17, 1928.

Attest:

ARTHUR L. CYR,
City Clerk.

Report of the Board of Health

Nashua, N. H., March 1st, 1929.

To his Honor the Mayor and Board of Aldermen:—

During the year 1928 there was an epidemic of Measles. The number of other Contagious Diseases, was about normal for this City. With Scarlet Fever in surrounding Towns, especially in Milk Producing Centers, we used the Dick Test, Prophylectic, etc., to make sure that it would not get a start in our City.

With no special fund to carry on immunizing work against Diphtheria and the scare of that disease in our neighboring City of Manchester, we felt that Toxin-Anti-Toxin should be used at once to avoid the epidemic in this City. There were 352 Toxin-Anti-Toxin Injections, given during the year 1928 under supervision of this Board with the help of Good Cheer Society. It is the opinion of this Board that such a work should be carried out and financial provisions made for same.

Contagious Diseases during 1928, were very mild with no deaths.

Wonderful work is being done by Dr. Kerr and his assistant in the Tuberculosis Clinic. Rapid stride is being made in this Department to eliminate tuberculosis through tests, examinations, etc. This Board is fully convinced after reading the latest reports of Dr. C. H. Mayo of Rochester, Minnesota, and the State of Illinois, that if the Nashua Milk supply was completely Pasteurized it would be a great help to Dr. Kerr and his Assistant as a preventive.

The Venereal Diseases Clinic is functioning, and a great deal is being accomplished, although very little is said about that work.

During the year, vaccination against Small Pox was carried out in the Parochial Schools in our City and follow up work in communicable and contagious diseases was carried out in these schools.

The Annual Clean-up Campaign was carried on in con-

junction with the Board of Public Works, and the results of this work were very satisfying to this Board.

The following cases were reported during the year 1928:

Scarlet Fever	69
Suspect Scarlet Fever	11
Diphtheria	7
Mumps	14
Chicken Pox	22
Whooping Cough	8
German Measles	4
Measles	437

Total number of cases reported 573

These figures show only cases reported to this Board. Many cases of Mump, Measles and Chicken Pox were not reported.

Suggestions and recommendations from this Board for the year 1929 were sent to His Honor the Mayor and members of Finance Committee.

Respectfully submitted,

NASHUA BOARD OF HEALTH,
O. S. Maynard, M. D.,
Alfred Daudelin, M. D.,
Ernest E. Levesque.

Report of Health Officer

March 1st, 1929.

To the Nashua Board of Health,
Nashua, N. H.

Gentlemen:—

I respectfully submit to you the following report as Health Officer of the City of Nashua, from January 1st, 1928-1929.

Houses Inspected	23
Plumbing and Drainage Inspections	109
Privy and Vault Inspections	17

Bakeries Found Unsanitary	4
Ice Cream Plants Inspections	16
Ice Sent to Concord for Analysis	4
Boarding House Inspections	33
Fish Market Inspections	4

The Usual work of this Department was carried on during the year, and usual Clean-Up Campaign held during the month of April with co-operation of Mr. J. A. Moussette an Employee of the Board of Public Works as assistant. The City showed a marked improvement in conditions over

any previous year. The Yards and Alley-Ways were greatly improved. I have had the best of co-operation from the Merchants and Citizens in this respect.

I have been aided in many ways with the faithful co-operation of our State Food Inspector Mr. Joseph X. Duval, our Milk Inspector Mr. Albert E. Smith, and the Public Health Nurse Miss Lillian B. Morin, in my investigations, together with your co-operation at all times.

Respectfully submitted,

EUGENE HYSETTE,

Health Officer.

Report of Milk Inspector

March 1, 1929.

To the Nashua Board of Health,
Nashua, N. H.

Gentlemen:—

During 1928, I was able to give considerable time to testing the milk, as delivered to the milk plants by the farmers. It was tested for bacteria, butter fat, sediment and temperature. In this way the plant owners and I could go back to the farms and correct any trouble that was found.

The butter fat content of the market milk has increased due to the public demand for a richer milk. The dealers used to standardize their milk to 3.7 percent butter fat but I notice to-day they sell a 4% butter fat with no increase in price.

This year another dealer installed a pasteurizer making 10 dealers in all selling pasteurized milk.

The number of dealers has decreased from 54 in 1925 to 35 in 1928. This is due to a number of factors but very largely to the fact that it costs too much to handle milk in small volume. The price per unit is increased so much that this is no profit.

EXAMINATIONS OF MILK

	Satisfactory	Unsatisfactory	Total
Butter fat	289	15	304
Total solids	23	14	37
Bacteria	635	69	704
Sediment	389	95	484
Farm Inspections ..			310
Milk Plant Inspections			568

Respectfully submitted,

ALBERT E. SMITH,
Milk Inspector.

Report of Public Health Nurse

March 1st, 1929.

To the Nashua Board of Health,

Nashua, N. H.

Gentlemen :—

I respectfully submit to you the following report as Public Health Nurse of the City of Nashua from January 1st, 1928-1929.

VISITS

During the year I made 1692 visits in different parts of City. Assisted the Community Council Nurses, twice, in getting the children ready for the summer camp. Assisted at two Good Cheer Clinics when Toxin-Anti-Toxin was given to the children as a preventive of Diphtheria.

The general co-operation which I have received from the Doctors of this City and neighboring Towns, Good Cheer and Community Council Societies and the public has been most helpful, and for this I wish to thank them.

Respectfully submitted,

LILLIAN B. MORIN, R. N.

Report of City Physician

January 23, 1929.

To his Honor the Mayor and the Board of Aldermen,

Gentlemen:

I, herewith, submit my report as City Physician for the year ending December 31, 1928.

House visits	846
Office calls	621
Calls at Police Station	14
Commitment papers filled	15
Treated one case of Diphtheria.	
Performed one appendectomy.	

Respectfully submitted,

ROMEO J. PARADIS, M. D.

Report of Fire Commissioners

To the Honorable Mayor and Board of Aldermen,
Gentlemen:—

We respectfully submit to you the report of the Fire Department for the year ending December 31, 1928.

The Board of Fire Commissioners, consisting of H. C. Lintott, C. H. Austin and E. W. Dunklee, met January 1st, and organized by electing H. C. Lintott as chairman and E. W. Dunklee as Clerk.

Fire Prevention Week, October 7th to 15th, was again fittingly observed by the Department.

INSPECTIONS OF THE DEPARTMENT

Officers and members have made Inspections of Blocks, Cellars, Yards, etc., to guard against the accumulation of rubbish and inflammable material and to note any conditions liable to cause fire.

These inspections are of great benefit to the citizens and property owners in genral. The Inspections are also of great value to this department allowing the members to familiarize themselves as to the nature of contents and the construction of the different buildings within their districts.

We think that every effort should be made to lower our insurance rates.

In conclusion we wish to extend our thanks to his Honor the Mayor and the members of the Board of Aldermen, for their co-operation and interest in our department, to the Chief of Police and members of th Police Department, to the Superintendent and employees of the Water Department for valuable services rendered, also to the Gas and Electric Departments of the Public Service Company.

The Officers and members of the Fire Department have our commendation and sincere thanks for the efficient and faithful manner in which they have performed their duties.

FIRE ALARM TELEGRAPH

This branch of the service is now in good condition except the placing of the wires in ducts located by the New England Telephone and Telegraph Co. in place of the overhead wires, which work is still in progress as fast as ducts

are laid. As the growth of the City is extending its lines in the outlying districts. We would recommend a Special Appropriation to cover the cost of extending the Fire Alarm System in these sections, especially in th North, South and West sections of the City.

Respectfully submitted,

H. C. LINTOTT,

C. H. AUSTIN,

E. W. DUNKLEE,

Fire Commissioners.

Report of the Police Commissioners

Nashua, N. H., January 23, 1929.

To His Honor the Mayor and Board of Aldermen of
Nashua, N. H.

Gentlemen:

Enclosed, find detail report of the Police Department
for the year 1928.

This department has been called upon to perform a
large amount of extra duty, which received careful attention
and was executed in an efficient manner.

Respectfully submitted,

ARTHUR DEMONTIGNY,

WILLIS A. SHEDD,

JOHN W. COFFEY,

Police Commissioners.

Report of the Chief of Police

During the year one prisoner escaped through the top of one of the cells and it was found that the top of the cells on the whole tier was of faulty construction and that it had been possible for this occurrence to happen at any time since the cells were constructed. The construction of the cells are of brick and are of a porous nature making them very unsanitary and almost impossible to keep free from vermin.

The cell room is so constructed that it would be very easy for any person to enter it by the rear and remove a prisoner from the cells or give him aid with which to make an escape.

The guard-room of the station house is and has been for some time crowded for room and it became necessary to place several lockers in the cellar of the main part of the station house for the men to use. The mention of this fact is for use in the consideration of my recommendation later in this report.

The department is now equipped with five automobiles and two motorcycles. Of this number, three are Fords used for patrol work during the night and by their use it saves the department \$7,391.00 per year less the maintenance of the automobiles. In addition, the use of these Ford cars are obtained for the liquor squad and the detective department during the day time for investigating crimes and accidents at a very small additional cost.

The department has for housing facilities for these five cars and two motorcycles, a small garage at the South of

the Police Station capable of holding only two automobiles making it necessary to house all other vehicles in the street owing to the lack of space it is not possible to enlarge the present garage, therefore, it would be necessary to look for other means of relief.

At the beginning of the present year one block of cells was removed from the North side of the cell room with the view of making an entrance on the West side of building for use as a garage, but the appropriation for the year 1928 was not enough to make this change nothing further has been done. Even this change would be inadequate for the proper housing and repairs of the automobiles.

I would recommend to your Commission that the tier of cells which remain on the North side of the cell room be removed. That a floor be built across the North half of the building dividing the upper and lower level. This change would give ample garage room on the lower level for years to come and would give a large guard-room for use of the officers on the upper level. With these changes it would leave the South side of the present cell room for the care and detention of prisoners, which would be adequate for years to come.

I recommend that all entrances to the cell room be equipped with a steel door to prevent escapes and assistance from the outside which is so easy at the present time, also that the iron bars at the windows in the cell room be properly anchored in the wall to avoid a repetition of the escape of a prisoner where he pulled the bars from the wall with his bare hands.

I recommend that a room be set off next to the East wall of the cell room, and this room be used as the complaint and booking room and that the main entrance to the cell room to be from this room. This would keep the cell room and prisoners constantly under the observation of the officer in charge of the station or the officer on duty at the desk. The reason for this recommendation is that owing to a recent state law it is obligatory upon the officer in charge to allow visitation of prisoners at all times and it is necessary to watch all visitors to see that they do not convey weapons or tools of escape to the prisoner.

I also recommend that the Commission consider the advisability of equipping the cell room with sanitary steel cells, two of which be made from tool proof steel. If the expense is more than can be considered at this time I would request that at least two cells be equipped with tool proof steel bars as any of the bars in the present cells can be cut very easily with an ordinary hack-saw blade.

Respectfully submitted,

IRVING F. GOODWIN,

Chief of Police.

Report of Park Commission

To his Honor the Mayor and Board of Aldermen,

The Park Commission makes its annual report for the year ending December 31, 1928.

The Board is organized this year: Robert W. Bundy, Chairman, Frank X. Tardiff, and Frank J. Finning, Clerk.

We are pleased to report a very satisfactory year and in addition to the ordinary routine work of the department a number of improvements were made without any extra appropriation. A cement, two car Garage with loft for storage purposes, was built by our men on rainy days, together with improvements as laid out in plans for the several Commons and Parks.

Greeley Park

As our City is growing so is the number of visitors to our Parks. Very few of our tax payers knew of the Greeley Park only as on the west side of Concord Street until it was brought before them during the Centennial Week of the past year. We shall predict now that within a few years that an underpass of the B. & M., R. R. will permit easy access to the shores of the Merrimack River where during the hot summer months bathing and boating could be enjoyed by those that like such sport. All of the underbrush has been removed giving the young trees plenty of room to grow and also improve the appearance of the grove. Just off of Concord Street, on the east side, nearly 100 young pines and 50 oaks, maples and elms were planted and in time work in perfect harmony with plans already developed for this side of the Park.

The new drive on the west side will be finished this year and a new slide and a larger set of swings for the ever increasing demand of the children.

South Common

This valuable piece of land, in the center of the City, is at last in shape so that the entire surface is so that we can cut the grass with a Lawn-Mower and this year new posts will be set in on Elm and Otterson Streets giving the Common a beautiful appearance. The Recreation Commission received permission to install a Lawn Tennis Court, this adds a healthful sport for many of the taxpayers.

Carnivals, Bonfires and celebrations of like manner should not be encouraged by our people as they have, as in the past, left the common in a terrible and irreparable state, keeping in mind always that the neighbors have some rights.

North Common

The Artillery Pond Basin is fast filling up and will soon be the mecca for all kinds of outdoor sports. The Commission will ask this year for a special appropriation of \$5,000 that the dumpage could be brought to a level and the loam taken from the south end of the Basin could be spread over this and to remain so for one year, taking the sourness out of the Loam and by next fall this could be harrowed, rolled and seeded down, thus completing this the north end of the Pond.

The Baseball field, Bleachers and Canvas was wished on us and it is the intention of the Commissioners that any of our local teams can have the use of same by paying the actual cost, giving them a chance of earning a small sum to the victors and much fun for those that witness these games.

Other Parks and Squares

The Meeting House Park, proper, is a very small piece of land and in its present size can be made into a pretty plot and our men will look after it this year with that in mind. Hannah Dustin, Monument Square and Deschenes Oval and smaller public plots are kept mowed. The Buxton Greenhouses, Inc., set out a beautiful Flower Bed in the Esplanade and F. H. Bailey & Son gave a large Bed of Flowers to the Stark Square which were much admired by the thousands of tourists going through our city.

Moth Work

The Park Commission have no special appropriation for this work and the money is taken from our regular appro-

priation. We find that the Brown Tail Moth nests are considerable less this year compared with other years and the Gypsy Moths are on the increase. In trimming the nests from tree to tree our men have found a number of dead limbs and limbs that cross each other that in time will kill both limbs. We have no authority to remove anything but the nests from the trees and we suggest that the Park Commission be allowed to care for all Public trees as we have men well versed in such work.

We submit the following request for the year 1929:

Regular appropriation for upkeep and maintenance	\$ 9,500.00
Repairs and painting bleachers at North Common ..	275.00
Repairs and replacement of canvass at North Common	200.00
Extension of water mains at Greeley Park	250.00
	<hr/>
Total	\$10,225.00

Above simply takes care of necessary maintainance in order to keep the public parks in neat condition and it should be so that we could do some constructive work each year in order to keep in step with other departments.

R. W. BUNDY, Chairman,

F. X. TARDIF,

F. J. FINNING, Clerk.

Report of the Recreation Commission

To the Honorable Mayor and the Board of Aldermen :

During the year 1928 your commission has promoted four activities, Skating, Play Ground, Swimming and Tennis, with an attempt at Sliding, but there was so little snow, that this did not meet with much success.

Skating

Two rinks were in operation during the skating season of 1927-28, one at the North Common, the other at the South Common. The spraying for most of the winter months of 1928 was looked after directly by your Commission without a superintendent, and with a fewer number of permanent men, hiring in such help as weather conditions required. This resulted in a considerable saving in making ice. The Rink at the South Common was patronized almost beyond its capacity and should be enlarged. The great need here is to have a large portion of the south side of the Common leveled so that a good skating surface could be made quickly. On a level surface this is possible almost in a single night, while with a good deal of unevenness it takes several nights of cold weather to get good skating. The North Common has not proved so popular and there seems to be a demand for Artillery Pond. So that beginning the Season 1928-29, your Commission decided to discontinue the North Common and use Artillery Pond. This was not decided upon early enough to put the area to be used for skating into condition, and therefore there is more or less grass and weeds still in the way. However, your Commission is of the opinion that with any skating weather at all this can be made a very popular and useful skating rink.

Swimming

The municipal swimming pool has been in great need of dredging and a retaining wall to keep the gravel from washing back in and filling up the pool. We attempted to

start this work before opening the bath house in the early summer, but due to high water this proved to be impossible. Late in the Fall we had low water and started dredging, got about half of the dredging on the west side of the pool done, when it was deemed necessary to take the machinery away to prepare for the snow season. At least two or three thousand dollars should be expended on the pool next year in finishing the dredging and putting in at least a part of the retaining wall. The pool was managed by superintendent William J. O'Neil as heretofore, and was done in a very efficient and successful way. Mr. O'Neil's report is included herewith.

Playgrounds

Playgrounds opened later than usual, due to the celebration of the 75th Anniversary, but the work was attended with a very successful season. One new playground was opened on Blossom Street, and from the attendance it is evident that it was needed and is much appreciated. This work was, as heretofore, under the management of our very able superintendent of playgrounds, Ray Pendleton, whose report is included herewith.

Tennis

One municipal tennis court has proved quite inadequate for the city's needs, and two new tarvia courts were put in at the South Common. These were dedicated September 22 by some of Nashua's enthusiastic tennis players, with speaking by His Honor Mayor Sullivan, former Mayor Sargent and Reverend Mr. Niles. These courts proved extremely popular, and although the natural tennis season was about over before they were dedicated, they were in constant use up to the arrival of the first snow, when the nets were removed. Another court is needed at the North Common, which your Commission confidently expects to build in the early part of the next year. And two tarvia courts should be built at Crown Hill. The operating expense of the tarvia courts is almost nil, and as public courts, to use in all kinds of weather and have ready almost immediately after it stops raining, they have great advantages over clay courts. Also, the first cost is no more, if as much, as for clay courts.

Our rather large cash balance is due to the fact that we economized as much as possible throughout the year with the intention of spending the money at the swimming pool, and then we were unable to finish the work there, leaving a considerable balance.

Respectfully submitted,

C. H. BABBITT, Chairman,
ARCHIBALD F. CHENEY, Secretary,
HELEN B. UNDERHILL,
OSCAR M. FLATHER,
PETER DESAUTELS.

Report of Supervisor of Playgrounds

To the Recreation Commission:

The playgrounds opened later than usual this year, due to the 75th Anniversary Celebration, but this in no way interfered with the success of the summer work.

One new Playground was opened up this season at Blossom Street. This fulfilled a needed want in that section of the city.

The staff of workers was changed considerably over that of the previous year. But in spite of so many new workers the summer program was carried out the best in recent years.

Tournaments were conducted in Senior and Junior baseball, Senior and Junior track, and Senior and Junior horseshoe,—all for boys. The girls participated in volley ball and bean bags. These tournaments comprised interplayground activities. Beside these, pet shows, treasure hunts and picnics were held.

The attendance on the different grounds was very good, and shows an increase over that in 1927. Based on a person-period basis, the attendance at each ground was as follows:

North Common	4121
O'Donnell	5007
Crown Hill	4802
South Common	9138
Blossom Street	4187
Nashua Mills	6512
<hr/>	
Total	33767

The cost of operating the six playgrounds was \$3,130.22. This brings the cost of 9c per person period.

The usual handicraft activities were held under the supervision of Mrs. Foley, and proved as popular as ever.

The final day program was held at North Common and was based on the regular summer program: In conjunction with this, a lantern parade was held which proved to be one of the best features.

Respectfully submitted,

RAY PENDLETON,

Supervisor of Playgrounds.

Report of Supervisor Municipal Swimming Pool

To the Recreation Commission:

The swimming pool opened the sixteenth of June, and closed September fourth.

The staff of workers consisted of two life-guards, special officer, swimming instructor, and myself.

Each year I have recommended that the pool be made larger by cutting back the bank and the point on the north side. This would give a larger swimming area and a better flow of water through the pool; also that a retaining wall be constructed on the south side to hold back the bank, which is being washed into the pool during every severe rain storm. The road leading into and out of the grounds is in very bad condition and also should be repaired. I am pleased to report that a start was made on these improvements last fall.

The class of activities at the pool necessarily remain about the same each year. It can be classed as a large playground, where whole families join in recreation.

The work of Miss McQueeney as a teacher of swimming and life-saving is worthy of note. The children are taught swimming, and the different methods of life-saving as recommended by the American Red Cross.

125 children passed the test for beginners.

20 children passed the test for swimmers.

12 children passed the test for Junior life-savers.

9 boys and girls over 17 years of age passed the test for Senior life-savers.

The attendance figured on a per person-period basis taken three times a day of those in bathing at 11:30 A. M.—3.30 P. M.—7.30 P. M. totaled 16,287.

	11:30 A.M.	3:30 P. M.	7:30 P. M.	Total
	Attendance	Attendance	Attendance	
June 16-June 30	104	1083	719	1906
July 1-July 31	613	4665	3040	8318
Aug. 1-Aug. 31	694	3511	1790	5995
Sept. 1-Sept. 4	11	52	5	68
Grand Total				16,287

The receipts showed an increase over last year, and expenses decreased a small amount. I think a still greater return can be made when improvements are completed.

Receipts of Pool	\$ 572.55
Concession	20.00
	<hr/>
	\$ 592.55

Paid out:

Supplies	\$ 46.57
Laundry	22.46
	<hr/>
	\$ 69.03
	<hr/>
	\$ 69.03

Turned over to City Treasurer	\$ 523.52
-------------------------------------	-----------

EXPENDITURES

Salaries	\$1,108.90

Water and Lights	24.36
Laundry	22.46
Supplies	46.57
	<hr/>
	\$1,242.29
Total Receipts	592.55
	<hr/>
Total cost to the city	\$ 649.74

Total cost to the city \$649.74, for 16,287 users of the swimming pool,—practically four cents per person period.

I am sincerely grateful to the Supervisor of Playgrounds, and to the members of the Recreation Commission, who have always been pleased to assist me.

Respectfully submitted,

WILLIAM J. O'NEIL,

Supervisor Municipal Swimming Pool.

January 1, 1929.

Report of City Solicitor

To the Mayor and Board of Aldermen of Nashua.

Gentlemen:

I submit the following report for the year ending December 31, 1928.

The year 1928 was an unusually busy one for the City Solicitor, presenting many important matters in addition to the usual routine work of the Legal Department.

The first serious problem came in connection with the building of the Canal Street Bridge, and involved an attempt to use the Initiative Petition for the first time since the new Charter was put in force. Action in the Superior Court was also brought, but was later dismissed.

Another important matter was the suit of Bowers and Slawsby vs. the City of Nashua. The trial of this suit occupied a week in the Superior Court, and was finally adjusted, the City of Nashua purchasing a strip of land from Bowers thereby making the City sole owner of the Park just South of the Main Street Bridge.

The suit of Rheume vs. City of Nashua was settled, by the payment of compensation, under the Employers' Liability Act of New Hampshire, to the widow.

The case of Markarian et als vs. the City was finally settled on June 21, 1928, and several suits of minor importance were disposed of without recourse to the Court.

Much time was spent in connection with East Pearl Street relating to the removal of the Nashua Street Railway tracks. No progress was made on the suit which is now pending before the Supreme Court, but Agreements were obtained from the Street Railway resulting in the repair of the tracks on East Pearl Street, and the prospect of considerable improvement of the tracks on Main Street between East Pearl Street and the City Hall. The case is still pending, and if the necessity arises, can be brought to a hearing.

Many duties were performed with respect to the details of the bond issues in connection with the construction of the Canal Street Bridge, and the Veterans' Building, so-called.

Many Ordinances and Resolutions were drawn for members of the Board of Aldermen, many opinions, both verbal and written were rendered to nearly every Department of the City, contracts were drawn, cases investigated, and one violation of the Itinerant Vendor Law was prosecuted.

Respectfully submitted,

ALVIN A. LUCIER,

City Solicitor.

Annual Report of the Trustees of Suburban Cemeteries

To his Honor the Mayor and Board of Aldermen.

The Board of Trustees of Suburban Cemeteries present their Annual Report for the year 1928.

The several Cemeteries have been given the usual care for general upkeep, and are in good condition.

During the year a tract of land adjoining the west side of Evergreen Cemetery was purchased, thus providing for future expansion and giving an outlet on South Chestnut street.

Annual Report of the Trustees of Edgewood Cemetery 1928

To the Honorable Mayor and Board of Aldermen:

The Trustees of Edgewood Cemetery present their 35th annual report, for the calendar year 1928, as follows:

The Cemetery grounds are in excellent condition, some new territory having been improved during the year. The buildings are in fair order; the office and tool house needing painting, an inexpensive job which can be done by our own men. Our old and dilapidated wooden fence on Amherst Street and Cushing avenue has been replaced by a modern, handsome and enduring iron fence, paid for by the special appropriation of \$4,500. in 1928 and from unused funds in our hands.

The new Anderson Chapel is approaching completion, an exceedingly beautiful building, a credit to any locality and a lasting monument to the donor, Mrs. Ella F. Anderson and to her husband, the late Frank E. Anderson.

The financial condition of the Cemetery on December 31, 1928, is shown as follows:

TRUST FUNDS FOR PERPETUAL CARE OF LOTS

Respectfully submitted,

EUGENE P. JOHNSON,

Secretary for Board of Trustees.

Report of City Librarian

FOR THE YEAR 1927

In reviewing the work of the year it is a satisfaction to be able to show such a fine record of growth. So far as it can be expressed in terms of circulation it has been the largest in the history of the library. This totalled 149,661 volumes, a gain of 18,855 over 1926. In the adult department there was a gain of 763 registrations. Besides the number of volumes loaned for home use, 4,380 books and magazines were given out for study in the Reading Room, many of these requiring special research for articles wanted. The average circulation per day in the adult department was 288. The foreign circulation shows a decrease, not because our readers were less interested, but because there was not sufficient time to purchase and catalog new titles.

The reference work has increased steadily, not only with pupils from the public schools but with adults. A great many questions were answered over the telephone, daily, covering a wide range of subjects. The desk attendants seldom fail to find the information requested and never lack the splendid spirit of service. If the work continues to increase, a reference librarian will be needed with some arrangements made for a reference room. It is impossible to keep the Reading Room quiet for adult readers when reference work is being done by large groups of pupils from various schools. Our circulation desk is not large enough to accommodate more than two assistants. It now requires that number much of the time to charge and discharge books without the addition of another assistant doing reference work.

Miss Margaret Howison, who became full time assistant in September, took a reference course the latter part of the year at the Boston Public Library under the supervision of the Massachusetts University Extension. This proved beneficial both to the library and herself.

Mrs. Olive Nason, our Children's Librarian for four years, resigned in August. This position was a difficult one to fill as she had done exceedingly fine work. Miss Emily Whittier, a graduate of the Springfield Training School, with some experience, was engaged at that time. In November another change occurred when she resigned. Her place was filled by Miss Marion Manning, a graduate of Boston University, a former teacher, with nearly two years' experience in the Utica, New York, Public Library.

The total juvenile circulation was 49,297, which does not include the 220 sets or 5,279 Keystone Educational Views used with the stereoscope which went into the homes of many children giving both pleasure and instruction. 911 French books were circulated from this department. 452 books were selected by the librarian and sent to several schools to aid in supplementary reading.

A very successful Book Week was conducted the week of November 13, both at the main library and at Crown Hill. An attractive book house was built in the center of the Children's Room. The roof and sides were decorated with book jackets while shelves arranged inside the house held many of the books exhibited. Philip Morris, our local book-dealer, kindly loaned many attractive volumes. His cooperation was appreciated and added much to the usefulness of the display. Many parents and teachers visited the room and gained help with suggestions for Christmas buying. Great care was taken to select only those titles by the best authors, illustrators and publishers. The largest circulation for one day during the year, in fact the largest ever known, was the Monday following Book Week with 714 volumes loaned in this department. Nearly all this number was given out between the hours of four and eight, requiring four assistants, beside the librarian and two officers to keep the children in line allowing none to enter beyond the capacity of the room. Twice during the week story hours were held in the Newspaper Room. About 150 children were delightfully entertained with stories told by Mrs. Helen Hamblett and Miss Olive Buxton.

The Crown Hill Library shows a very prosperous year with a circulation of 12,671, an increase of 4,266. The value of continuing this service can readily be seen. Mrs. Gladys

Woodbury, the Librarian in charge since the trial opening in July 1924, has been much interested in the work and has served the people well. She was able to take the Library Summer Course given at Keene in July.

A deposit of books is much needed in the south part of the city, particularly for the little people who cannot come to the main library because of the distance and cold weather. Such a valuable educational institution must not stand still but each year more fully meet the needs of the people. May our budget soon be adequate to take care of such growth.

In November, Mrs. Anne Congdon kindly allowed many of her fine oil paintings exhibited in the Reading Room and in December through the efforts of Mrs. Congdon and Mr. Leonard F. Burbank a large exhibit from the Vesper George School of Art in Boston was loaned for two weeks. The work of several Nashua students attending the school was shown and some fine work by local artists added much to the interest. No account was kept of the number of visitors during these two exhibits but several hundred persons availed themselves of the wonderful opportunity of becoming familiar with the commercial art of to-day as it is being taught in an excellent school also the pleasure of discovering artists of real ability in our own city.

The library building has been an object of admiration and curiosity to strangers visiting the city for twenty-four years. In December, bronze tablets were placed on either side of the front entrance, informing the public that it is the Hunt Memorial Building and the Nashua Public Library. This was one of the great achievements of the year and many thanks are due the committee for their perseverance.

The library lawn has needed attention for several years. In the summer it was entirely dug up and resurfaced. A barberry hedge was planted around the edge, hoping it would protect the lawn from careless pedestrians who have used it as a pathway for their own convenience, also from children who have considered it a playground.

Through the interest and help of Mayor Sargent, the Trustees voted to install a new lighting system. This much needed improvement will be appreciated by the staff and patrons.

The American Library Association, after careful study, has made the statement that one dollar per capita is the minimum for library appropriation. We are not living up to this by one half. Until we are nearer the goal, great things cannot be accomplished. Salaries are small, therefore trained help is not available. Roosevelt has so truly said, "After the church and school the free public library is the most effective influence for good in America!" Its value is not realized, therefore our support is markedly inferior to that afforded other institutions.

The library has received 199 gifts ,consisting of books, magazines, newspapers and pictures. A valuable collection of state and county reports was presented by Mr. Everett M. Stevens which has helped complete our files. Our thanks are extended to him and to all others for their interest and help. We wish, particularly, to express our hearty thanks to the Telegraph Publishing Co. for their splendid cooperation in printing monthly book lists and publicity items during Book Week and the art exhibitions.

The librarian is grateful to her loyal and efficient assistants without whose fine spirit it would have been impossible to carry on so successfully during the year. To the Board of Trustees for their cooperation, guidance and individual help she acknowledges her gratitude.

Respectfully submitted,

CLARA E. SMITH,

Librarian.

Report of City Librarian

FOR THE YEAR 1928

Each year the Public Library is increasing its usefulness, more and more meeting the needs of the community, not only by furnishing recreational reading but by helping those who wish material on more serious subjects. During the last few years there has been a great variety of splendid non-fiction titles published. While all can not be purchased, we have many of the more important works. Interesting biographies, showing how men and women have met their problems, travel, poetry, essays, drama, and business books are in constant demand and it is gratifying to know that so many of our patrons are availing themselves of this free education extension service.

All departments show a decided gain in circulation over 1927. 170,885 volumes were charged out for home use, showing an increase of 21,224. Books and magazines loaned for reading and study in the Reading Room numbered 4,973, which has not been added to the total circulation. This is a gain over 1927. The juvenile department at the main library circulated 52,520 volumes, an increase of 3,223. The total for Crown Hill was 15,496, an increase of 2,825. 4,448 foreign books were circulated with an increase of 583. Picture circulation: 425.

1,865 volumes were added during the year, 106 of these being gifts. 878 were discarded, making a total gain to the library of 1,093 volumes. The largest month was December with a circulation of 9,748. The average circulation per day in all departments was 564. The library was open 303 days and Sunday afternoons in addition, during the first half of the year.

In February Miss Madeleine Engelhardt who had had experience in the Goffstown, N. H., Public Library was engaged for page duties.

Miss Anne Elizabeth Leach, after serving us well for two years, resigned the first of October to accept the more lucrative position of assistant librarian in the Perth Amboy, New Jersey, Public Library. Her loss has been felt keenly, and another senior assistant has not been procured. Miss Elizabeth Spring was able to help out at this time and she has served us faithfully and well.

The reference work has increased over last year and still remains a problem. There is another problem at Crown Hill which should be met next year. The room in the Community House which seemed adequate two years ago, is not nearly large enough to accommodate the patrons and the crowded condition seriously handicaps its usefulness. With a circulation of over 15,000 volumes this year, the need is plainly established. When the expense of \$30.00 a month, the librarian's salary, is considered, no better dividends could be received.

Through the continued interest of Mr. Leonard F. Burbank, very fine art exhibits in oils and water colors have been held at intervals during the year. Paintings by J. E. Enneking, J. J. Enneking, Chauncey F. Ryder, Roy Brown, Henry Kenyon, Bessie Spaulding, Hilda O'Neil, Dorothy Neaves, Stanley Woodward, Carroll Bill, Sally Cross Bill, Oscar Anderson, James Saulnier, William Kaula and Lee Kaula were much enjoyed by Nashua citizens as well as the many visitors from the surrounding towns. These exhibitions have helped advertise the library and increased the interest by bringing new patrons.

Book week was observed as usual in all departments in November and this year we tried to advertise some of the better books in the adult department. The 'Trustees' room was made into a book shop with attractive posters and other decorations. The better and newer non-fiction was displayed with some recreational reading and attractive illustrated copies of the classics which are often hard to find in large, clear type. This first attempt proved a success and the book shop became a popular browsing place during the entire week. Speare Dry Goods Company very kindly allowed us space in their windows for a display of books and posters.

In the Children's Room, besides the usual book display, Miss Manning, the librarian, converted one end of the room into a stage where sketches of "The Courtship of Miles Standish" and "Rebecca of Sunnybrook Farm" were given by a group of children at three different times during the week. In addition, book characters were represented by the children who appeared in a picture frame and songs were sung. The room was crowded at each performance and not only proved a great success but increased a helpful library spirit among the children. Certificates and prizes were given out on the last day to those who had read the most books on the summer vacation list. Robert Clement won both a certificate and a book for reading 25 books of travel and giving an oral account of each to the librarian. Miss Thelma Zerbino was awarded a certificate for reading twelve. A book prize for the best poster pertaining to Book Week was given to Philip Sheridan. Story hours were held during the week at the main library and Crown Hill.

Graceful acknowledgement is given to all interested friends for their contributions of books, magazines and newspapers during the year. To the Nashua Telegraph who has so generously cooperated by printing publicity items, we extend our thanks. My appreciation is extended to the staff who have generously responded to the spirit of service and to the Trustees for their help during the year.

Respectfully submitted,

CLARA E. SMITH,

Librarian.

Annual Report of Nashua Hospital Association

EXECUTIVE COMMITTEE

To the Nashua Hospital Association.

Gentlemen:

Previous to submitting the report of the work accomplished by the Memorial Hospital for the year 1928, it is my painful duty to recall the loss during the year of our distinguished citizen, fellow practitioner, and chairman for many years of the Executive Committee of this hospital, Dr. Augustus Washington Shea. Any eulogy of Dr. Shea in this report is unnecessary, for we all knew the man and loved him well, but it seems fitting that at this time we should take note of the fact that in his death the Nashua Memorial Hospital has sustained a loss that might well be deemed irreparable. Dr. Shea would have been the last man in the world to have agreed to my estimate of his worth to the hospital, for he always maintained that no man was so valuable that he would be missed for any great length of time, but I think you will agree with me that we do and shall miss our former fellow worker for a long time to come and that the hospital has met with a great loss in his passing.

The work for the year of 1928 follows:

Total number of patients treated during	
the year 1928	2490 Increase 9.6%
Patients remaining in hospital Jan. 1, 1928	46
Number of surgical patients admitted ..	890

-------------	-----

In January during the past year that portion of our property known as the Estabrook Mansion was partially destroyed by fire. In view of the estimated cost of rebuilding the same, it was deemed wise to let it remain as it was for the present, in the meantime hoping we might receive an offer for its purchase. No such offer has been received as yet. The building which was known as the garage is being rebuilt to accomodate those who do manual labor in the various departments of the hospital—kitchen, laundry, etc.

This addition to the hospital has been much needed, as the wooden ell in which they have been quartered, built many years ago, and rather cheaply at that time, is hardly in keeping with the rest of our plant. Furthermore it is an eyesore to those occupying rooms upon the west side of our new wing. In addition to the above, the removal of this building will greatly benefit the ambulance approach.

In May during the past year the resignation of Miss Martha Wallace as superintendent was accepted. Miss Wallace had been superintendent of the hospital for eleven years. She came when the institution sorely needed a woman of unusual executive ability and she clearly proved her worth during her period of service. It was without question largely due to her untiring efforts that this hospital attained its present rank as a Class A institution.

From June 1st to October 1st Miss Ann MacDougal, supervisor of the operating room department, was acting superintendent of the hospital, and our thanks are due her for the very efficient manner in which she discharged her duties. On October 1st we were fortunate in temporarily securing the services of Miss Edith L. Bennett, a woman of large experience in other hospitals as superintendent. Miss Bennett did not feel that her health would permit accepting the position permanently, but kindly consented to remain until the right party could be secured. I am happy to say that we feel the right party has been secured in the person of Miss Lillian A. Sutton, a graduate of the Presbyterian Hospital, New York, Class of 1917, and for the past two years assistant superintendent of the Waltham Hospital, an institution well known in hospital circles for its efficiency and with a training school for nurses that stands preeminent. During the past summer a new department was incorporated, that of dietetics and supplies, and a trained dietician placed in charge. This we believe will result in efficiency and economy.

Owing to frequent changes in management, the past year was a trying one for those working in the hospital, as well as for those responsible for the conduct of its affairs. The Executive Committee wishes to thank the heads of departments, the office force, the nurses and all employees of the hospital for their demonstrated loyalty during this difficult period.

Respectfully submitted,

F. E. KITTREDGE,

Chairman.

Nashua Hospital Association

Report on Training School for Nurses

Our nursing staff now consists of 36 nurses, 28 pupils and 8 graduates. During the year we admitted 9 and in October we graduated 7. The new graduate nurses are Miss Sutton, Superintendent, Miss Campbell who is coming in two weeks, superintendent of nurses, Miss Johnson, night supervisor, and Miss McCloud assistant floor supervisor. It has been our attempt in keeping with the trend of nursing education to give our pupil nurses much more instruction both theoretical and practical in character, and I believe that this new year will see further studies in this direction.

PHILIP McQUESTEN,

Chairman Training School Committee.

Report of the Board of Public Works

Nashua, N. H., March 15, 1929.

The Honorable Board of Aldermen,

Nashua, N. H.

Gentlemen:

The following is the report of the Board of Public Works for the year 1928.

The appropriations were as follows:

REGULAR	\$140,000.00
PERMANENT PAVING BALANCE 1927	3,627.29
PERMANENT PAVING BONDS	25,000.00
TRUNK LINE MAINTENANCE	15,000.00
SEWERS BONDS	35,000.00
CANAL STREET BRIDGE	175,000.00

PERMANENT PAVING

Out of the Permanent Paving Bonds we have spent \$11,420.67 leaving a balance of \$17,206.62.

The following streets were paved, including the resetting of curb, grading, and new catch basins.

Dow Street another side hill street where gutters, and roadway were subject to much wash.

Cement concrete gutters, 191 Sq. Yds.

Cement concrete curb, 200 Lin. Ft.

Cost\$ 822.44

Cross Street from Canal to Whitney.

Cement concrete gutters, 208 Sq. Yds., Cost ..\$1,318.01

Work started late in season and continued as long as weather was favorable. Cement work on this street is about one-half completed.

Fairway

This street practically all rebuilt and surfaced with asphalt. Lines changed to improve lay-out, corners rounded at entrance, and new cement sidewalk constructed on South side, the entire length of street.

Asphalt Roadway, 2177 Sq. Yds., Cost\$1,263.86

Beard Street

This street being on a steep grade was subject to much wash making necessary frequent repairs; sewer and catch basins were in poor condition, due to deposit being washed in; cement gutters were constructed last year, and drainage taken care of; this year it was paved with asphalt the entire length.

Asphalt Roadway, 614 Sq. Yds., Cost\$ 479.39

Scripture Street being a narrow street, a combination sidewalk and roadway was constructed, with drainage in center.

Cement Concrete, 934 Sq. Yds., Cost\$1,892.25

Worcester Street from South to Scripture

Cement Concrete, 1155 Sq. Yds., Cost\$2,336.63

East Pearl Street

On July 13, 1926, the City Government established new street lines, widening on the North to Cottage Street, and on the South to Quincy Street. Property owners East were not in favor of widening to Temple Street as planned.

In 1927 we constructed sidewalks as far as Cottage Street, and provided drainage for the new pavement.

This year we relayed and grouted granite blocks as far as street lay-out; property owners were interviewed relative to widening to Temple Street, but several were still opposed.

The Board finally determined to correct poor roadway conditions, so curb was reset, and roadway paved with asphalt, cement sidewalks were also constructed the entire length on both sides.

The Street Railway also relayed and grouted their rails from Main Street to Temple Street.

Pavement between the rails relayed and grouted by the City.

As it has been done in all sections where we have put in sidewalks, all corners on intersecting streets, have been cut to make better and safer approach.

3689 Sq. Yds. Granite Block

2055 " " Asphalt Pavement

358 " " Cement Gutters

1563 Lin. Ft. Cement Sidewalk

Cost less sidewalks\$7,262.28

SIDEWALKS

There were 9773 Square Yards, or 3.33 Miles of Cement Concrete sidewalks, five feet in width, constructed.

This is .90 of a mile less than in 1927.

TRUNK LINE MAINTENANCE

Out of this appropriation of \$15,000.00, there was \$11,263.85 spent on the Milford Highway, for new construction, the balance was spent on maintenance of the Trunk line Highways, and the State Aid Roads.

On the Trunk Line Highways, the State pays One-Half of cost, and on the State Laid Roads, the State pays One-Sixth of Cost.

MILFORD HIGHWAY

This is a State Trunk Line Highway. known as the **South Side Highway**, and expense of construction, maintenance, etc., is shared by the State on a 50-50 basis.

During this year the section from Blood's Crossing Road almost to Pennichuck Brook Bridge was reconstructed, and repaired to the Bridge.

There was 1.08 miles of asphalt road, 18 feet wide, which is two feet wider than formerly, was constructed, and the remainder of the road to Pennichuck Brook Bridge, was patched and widened.

There was 9800 Square Yards on new work done at a total cost of \$11,263.85, of which the State pays one-half.

STREET RAILWAY TRACKS

Much time and thought has been given this subject, especially on the Main Street, from the City Hall to the Colonial Theater; also Concord Street, from the Soldiers' Monument to Greeley Park.

Many conferences have been held with the Street Railway Company, to see if these conditions could not be eliminated. Extensive surveys have been made on Main Street, and plans formulated, whereby, the rails can be raised to conform with the grade of the street.

It is understood that the residents of Concord Street, are to petition the Public Service Commission for the removal of the tracks on this street.

SEWERS

There were no large sewerage project this year. Following is a list of small sewers constructed:

Pasadena Avenue538 Ft.	12 inch	Pipe
Raymond Street462 "	15 "	" "
Prescott Street138 "	10 "	" "
Balcom Street125 "	10 "	" "
Orchard Avenue888 "	12 "	" "
Haines Street67 "	10 "	" "
Fossa Avenue327 "	12 "	" "
Van Buren and Jackson318 "	12 "	" "
Hill Street56 "	10 "	" "

Seventeen manholes were also constructed on these streets.

EXPENDITURES

Following are the lists of expenditures:

Office hours: 8:45 to 9:15 A. M., and 1:45 to 2:15 P. M.

Report of the Superintendent of Schools

To the Board of Education,
Nashua, New Hampshire.

This is the sixty-second in the series of reports by school superintendents in Nashua.

The following changes have taken place in the school force since January 1, 1928.

Six teachers — Hazel Corliss, Leota Jacobson, Mary O'Connell, Elizabeth Welch, Isabel Avard and Jane Dowd, and one nurse—Lucy Richards have resigned on account of marriage. The Director of Health and Physical Education was not reelected and Harvey Peach and Celian Ufford declined to serve longer. Helen Small and Helene Keeley were granted leave of absence.

Teachers newly elected in Nashua schools are: Donald Kempton, Webster White, Phyllis Snow, Mary Gallagher, Mildred Hallisey, Mary Dolan, Helen Stevens, Marguerite Moriarty, Lillian Hartwell, Janet Cutter, Marguerite Slatery, and Ellen Callahan.

Charlotte Cushing and Martha Shaber have returned after leave of absence.

Dr. Albert F. Mulvanity, who had been a conscientious school physician since 1914, died March 6, 1928. Dr. Roland J. Joyce was elected.

The school census gives the enrollment in the public day

schools as	4334
------------------	------

In private schools	2784
--------------------------	------

In public and private day schools	7118
---	------

In evening schools	274
--------------------------	-----

Total in public and private schools	7392
---	------

The number in the private schools is forty-nine more than it was one year ago and in all the public day schools

twenty-three less, but since the High School enrollment has increased this year by forty-eight, the decrease in the public elementary day schools is seventy-one. Two conclusions seem to be reasonable—**first**, rather more elementary pupils are attending private schools, and **second**, a great proportion of youth are entering the High School and the Junior High School.

ENROLLMENT

Fall Term Year	Junior High	High	Elementary Public	Grades Private	Elementary Grades Public and Private	All Public Day Schools
1924	484	832	2891	2692	5583	4207
1925	589	823	2851	2676	5527	4263
1926	674	849	2792	2679	5471	4315
1927	639	924	2794	2735	5529	4357
1928	651	972	2711	2784	5495	4334

The enrollment table for the last five years shows what the increase in the High School and the Junior High has been and also in all the schools, both public and private. These are all statistics from the first term in each year. The entering of the sixth grade and of the seventh grade in the same class in the Junior High School in September 1925 made the enrollment larger than ever before for the school years beginning in September 1925 and in September 1926 but the number now has not gone back by 167 pupils to what it was in 1924.

We are now past that irregularity in the Junior High School and the crest of that attendance wave is at present in the Senior High School. The new rooms at the High School should be sufficient to care for all that will be present next year if the number that graduate together with those who leave school before graduation is about the same as it was last year. The number that leave school varies with opportunity to secure employment and is difficult to predict.

Four new rooms were provided for the increase in the numbers at the High School this fall, one by changing a partition in the drawing room, two others by fitting up portions of the basement of the building and a fourth by making a unit kitchen in one of the former wood-working shops of the Quincy Street building. One of the basement

rooms is on the north side of the High School building and the other on the south side. The floors are of concrete and therefore it was necessary to provide movable desks and seats which do not require attachment to the pavement. The concrete is covered with a thick linoleum and there has been no trouble from dampness or low temperature.

Slate blackboards were secured for the three new recitation rooms from the abandoned rural school house on the Dunstable Road and from O'Donnell building. No one teacher or class is in either of the basement rooms for more than one hour a day. These two rooms cannot well be used during the two daily recess periods but at other times they are reasonably satisfactory.

The Mulberry Street building was thoroughly renovated during the summer. The yard of the Quincy Street School and the boys' yard of the Crowley School were covered with tar concrete which has lessened the amount of dirt brought into the building by the pupils. Furthermore, the ventilating fan of the Crowley school is located immediately adjacent to the boys' playground and it formerly sucked large quantities of dust into the rooms. This nuisance has been checked by coating the yard with a hard surface.

A much appreciated improvement has been secured in the installation of electric lighting throughout the Junior High School rooms. This is all the more serviceable because the building is used for the evening school. Extensive repairs have been made to the roof of the Mount Pleasant building and to the roof of the High School. The laboratories and the lecture room of the High School are heated with great difficulty in the coldest weather. What little radiating surface there is in these rooms is placed near the top of the rooms, by the skylights, for the sake of keeping the windows free from snow rather than to warm the rooms. If additional radiating surface could be put in it would be a great improvement. This is not a simple matter to accomplish in a concrete building.

A very earnest effort was made to reduce the cost of the schools this last year without reducing salaries or, I should say, in spite of the increase in salaries called for by the schedule. This is a hard thing to accomplish for the salary account is more than 80% of the total expenses of

the school department. The cost of kindergartens was considered carefully but no action was taken which would lessen their cost.

The last part of the calendar year we have had no physical director, one less nurse and less dentists; no manual training, auto mechanics, radio, or art classes in the evening schools; and the cost of books and supplies has been kept low.

The cost per pupil for 1928 in spite of all economies was twelve cents more than in 1927. The cost per pupil was \$88.77 while the average in the United States is \$100.00.

No courses for teachers have been given in Nashua during the year 1928 but thirty-four of the teachers have taken courses elsewhere. Some before the fall term and others since, and the later group will be eligible for salary increases next September. Some teachers besides these have unused credit for courses taken in earlier years. The number now eligible for pay increases because of courses taken is twenty-five and others may qualify in the summer. Thirty-eight other teachers should get a pay increase because they have not yet reached the regular minimum. Eighty-two teachers obtained an increase in salary in September 1928, and exactly one half of these teachers secured the increase because of courses passed. Most of the other half had not reached the regular maximum salary. The amount required for both kinds of increases for the calendar year 1929 will be less than in some previous years. If no other increases are voted than those provided by the salary schedule for women teachers, the amount needed for salaries in 1929 will be about \$6,600.00 more than in the year before.

It is worthy of note that twelve teachers, the majority being in the Junior High School, will commence next September to draw the full \$300.00 of the super maximum salaries provided by the schedule adopted December 15, 1924. These are the first to secure this reward and in every case it is due in part to courses taken before the schedule was approved.

Respectfully submitted,

CHARLES H. NOYES.

Report of the Assistant Superintendent of Schools

Mr. Charles H. Noyes,
Superintendent of Schools,
Nashua, New Hampshire.

Dear Sir :

I herewith submit my first annual report as Assistant Superintendent of Schools.

SECTION I

High School

I

The high school, both locally and elsewhere, is frequently subjected to criticism on the basis of poor preparation for college. This criticism is usually substantiated by superficial information drawn from isolated cases. Few people fully realize the tremendous demands which are placed on the high schools to-day in comparison to ten or fifteen years ago. The injection into the high school of children of so many different nationalities with such a varied background in ideals, habits, and environment has multiplied to a large degree the ordinary problems in differentiation. Twenty years ago the enrollment in our colleges was comparatively small and only a few of the larger colleges were able to operate any selective plan of admission. To-day practically every institution of higher learning finds itself in a position to inaugurate a program of selection. There results a certain keen competition for admission. To illustrate in 1927-28 Dartmouth College admitted 626 out of 2,235 applications. Any high school to be reasonably sure that its graduates can

survive in this competitive admission must institute in some form or other a program which offers a highly intensified preparation in those skills which contribute peculiarly to collegiate work. To accomplish this end the college preparatory pupils must be segregated in separate classes. A plan of this kind is doubtful procedure in that such small special classes are expensive in maintenance. There is the alternative of requiring a five years course for preparation for college. This is the plan which is being operated to some extent in several cities in Massachusetts. Preparation for college alone cannot be judged a valid standard for measuring the worth of any high school.

In a large, cosmopolitan high school, offering diversified work to fully 90% non-college preparatory pupils, it is surprising that, in the face of so many difficulties, the college preparatory pupils do so well.

"The prime function of the high school is not, as many think a fitting school for college entrance. This single biased line of thought, produced entirely by tradition, is rapidly failing to maintain its position. The high school of to-day is what it should have been long ago—a truly representative democratic institution".

Walter S. Young, Superintendent of Schools, in Worcester, Massachusetts has just completed a survey of the high schools in that city. The facts are so pertinent to our own school system that it seemed to me it would prove beneficial to measure our high school by the same standards.

II

Per Cent of Men and Women Teachers

Every high school principal and superintendent realizes the great need of having a large percentage of men on the high school faculty. Irrespective of the worth of the superior woman teacher there are many demands in the school of to-day which are outside of the province of her ability. In bulletin 32, published by the Bureau of Education 1927, it is recorded that in cities over 10,000 in population there are 37.9% of men and 62.1% women teachers. The table subjoined shows that we rank last in a group of representative cities.

Per Cent of Men and Women Teachers

	Men	Women
Boston	51	49
Manchester	50	50
Worcester	45	55
Cambridge	44	56
New Bedford	43	57
Lawrence	40	60
Manchester West High	36 2-3	63 1-3
Fall River	36	64
Lynn	34	66
Springfield	33	67
Concord	33	67
Lowell	27	73
Somerville	23	77
Nashua	18 2-11	81 9-11

III**Service**

A teacher should be rendering his best service when he is in the prime of life, which would be about twenty years after entering the profession. It will be noted that the largest group of our teachers have served between 2 and 10 years, and the next largest between 10 and 20 years.

Number of teachers who have taught less than ten years **18**

Number of teachers who have taught between 10 and 20 years **9**

Number of teachers who have taught between 20 and 30 years **6**

Number of teachers who have taught between 30 and 40 years **1**

Number of teachers who have taught more than 40 years **0**

IV**Natives of Nashua**

In studying the staff of the high school it will be discovered that 43% of the teachers are natives of Nashua. Preference should be given to the local applicant if candidates are of equal ability and training. However, it is a direct contribution to any system to bring to its schools an able teacher of wide experience elsewhere.

V Teacher Load

The usual method employed for determining the load of work assigned to teachers in high school is to establish an index number made up of three factors. The first is the number of classes per day; the second, the number of days per week; and the third, the number of pupils in the class. To illustrate, if the school is in session five days, and the teacher has five classes, averaging 30 per class, the index number is 750. The Columbia Staff in its survey of the Lynn schools used 750 as a standard which will be used at this time to measure our high school. In estimating the local load a supervised study period has been considered as the equivalent of a recitation period. The teacher load for our high school is **911**.

VI Holding Power

According to the Sixth Year Book of the Department of Superintendence, National Education Association, published in 1928, page 122, it is stated that, according to the United States Bureau of Education, out of every 1000 pupils who enter high school approximately 406 graduate or 41%. It may be seen by the statistics of the last four years which follow that our high school exceeds the standard by a good margin. I feel very strongly that even this commendable record may be improved if only a definite plan of educational guidance is inaugurated.

Table I

Class	Number Entered	Number graduated	% Graduated	Work	More than 4 yrs. to graduate	4 Yrs. and failed to graduate	Illness	Business College	Moved or went away to school	Disliked School	Died	Other Reasons	Unknown	Total
1925	248	148	60%	57	12		3		32	12	1	4		121
1926	245	150	61%	37	6	3	3	1	25	27		9		111
1927	239	140	58%	30	3	4			22	30	1	14	6	110
1928	261	152	58%	27	4	4	6		18	31	1	18	25	134

VII

Attendance in High School

The attendance records of a high school indicate something of the morale and earnestness of the student body and teaching force. The following tables gives the attendance record for the last five years. It is a record which will be hard to duplicate.

Table II

	Av. Membership	Av. Attendance	%
1922-23	676	646	95.56
1923-24	729	700	96.02
1924-25	795	761	95.72
1925-26	770	744	96.62
1926-27	792	761	96.09

VIII

Subject Failures**Table III****Per cent of Failures 1927-1928**

Subjects	Number of Pupils	Number failed	% of failures
English	841	63	7.5%
History	361	31	8.6
Mathematics	450	46	10.2
Latin	188	11	5.8
French	211	9	4.3
German	83	3	4.6
Stenography	90	15	16.7
Typewriting	201	8	4.0
Office Practice	26	0	0.
Bookkeeping	129	7	5.4
Physics	123	16	13.0
Chemistry	47	1	2.1
Biology	9	2	22.2
Commercial Law and Economics	105	0	0.
Civics	208	10	4.8
Business Training	135	12	8.9
Home Organization	35	1	2.0
Physiology	42	3	7.1

A study of subject failures reveals nothing of importance as the distribution is quite even. The somewhat large percentage of failure in Mathematics may be attributed to the fact that in many cases college preparatory pupils are grouped with non-college preparatory pupils. Such a situation is difficult in that there is a rigid demand for the preparation of one group and a pressing need for differentiation of work for the other group. The failures in Stenography naturally result from the exacting requirements of speed and accuracy. The small enrollment in Biology accounts for the large percentage of failure. The failures in Physics are traceable to incomplete laboratory work. The National Bureau of Education made a study of 304 high schools, 41 of which are in New England, with a total enrollment of 234,854 pupils. The results show that 4.23% of pupils failed in more than three subjects. In the year 1928 there was only .4% of the pupils in our high school who failed in more than three subjects. The large percentage of failures in any high school occur in the first and second years. It is the usual practice to put the teachers with the least experience in charge of these classes. It would seem good judgement to reverse this procedure and have the experienced teachers where there was the greatest mortality.

IX

Nationalities

Few people realize how complex the school problem of our city has become due to the introduction of so many nationalities. Following are tables which show the comparative representation of nationalities in 1922 and 1928.

Nationality Tables IV and V

(See next two pages)

Section 2

I

Testing Program

After years of careful experimentation, testing has been universally accepted as a legitimate part of the school work. A suitable testing program must be the result of careful

study and evolution. It is with this realization that there has been inaugurated this year the beginnings of a modest program. All pupils in the elementary, junior high schools, and first year senior high school have been given an intelligence test to determine their potential capacity for learning. The tests selected were standard tests which have been given to thousands of school children. The tests used were as follows:

Detroit First Grade Test—Grade I	
Haggerty, Delta I	—Grades II and III
National Test	—Grades IV, V, VI
Terman Group Test	—Junior High School
Terman Group Test	—1st year, Senior High School

NATIONALITIES REPRESENTED IN NASHUA SCHOOLS IN 1928

Grand Total 4067

The information obtained from the results of these tests will be of inestimable value to the teachers in later years in grouping these pupils homogeneously and in determining what may be reasonably expected of each child.

The general classification of individuals according to intelligence quotient follows:

Table VI

The Significance of the Intelligence Quotient

Class	Range of I. Q.'s
Near genius	140
Very superior	120-140
Superior	110-120
Normal	90-110
Dull	80-90
Border-line	70-80
Moron	50-70
Imbecile	25-50
Idiot	0-25

Theoretical Distribution

I. Q.	70	73	76	78	85	88	91	92	95	106	108	110	113	116	122	125	128	130
%	1	2	3	5	10	15	20	25	33.3	33.3	25	20	15	10	5	3	2	1

Distribution for Nashua

I. Q.	70	73	76	78	85	88	91	92	95	106	108	110	113	116	122	125	128	130
%	9	2	2	8	9	6	5	4	8	17	4	5	4	5	3	2	1	6

In studying the results of these tests there have naturally been discovered pupils of an exceptionally high intelligence. In other words there are pupils who are a number of years older mentally than they are chronologically. In those cases where it has been possible pupils have been accelerated. Acceleration depended upon these factors:

1. High I. Q.
2. Good Scholarship in all subjects
3. Good Health
4. Recommendation of teacher
5. Approval of parents

It is quite surprising to note that in many cases of those pupils accelerated they have immediately taken their places of leadership scholastically in the higher grade. There is no question but what we have neglected in the past to accelerate as we ought. I am subjoining an Age and Grade Table compiled in Jan. 1929 which shows the large amount of retardation in our schools. This retardation means added expense.

AGE AND GRADE TABLE JAN. 1929

(See next page)

Achievement Tests

"It is planned to use a battery of achievement tests this year to measure the progress of the pupils and the value of the teaching. The traditional school test was used to determine whether a pupil passes or fails, whether he is to be promoted or not. It had these weaknesses.

1. "It contains too few questions to measure satisfactorily achievement in the subject tested.

2. It measures work only in one grade, regardless of either a pupil's lack of mastery of the work of a preceding grade or his knowledge of the work of a higher grade.

3. The scoring is subjective—teachers disagree seriously in the mark they assign the same answer paper.

4. Too much and too difficult written expression is demanded of the pupils. This leads to subjective scoring and to the pupil often not being able to show how much he knows in the subject.

5. The standard is arbitrary; it disregards the difficulty of the test and is, therefore, often unfair.

The objective type of test satisfies the requirements of a good test.

1. Objective tests are specific, and therefore a large number can be concluded in one test. Thus the test may be truly representative of the subjective matter being tested.

AGE AND GRADE TABLE

1929

Age	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	Accel.	Nor.	Ret.
Kind 3	2 5	89 171 82	113 229 116 2	6 8														
Grade I			38 71 33	132 267 135	33 92 59	10 20 10	2 4 2	1 4 3								.155	.783	.062
II				28 52 24	107 193 86	40 98 58	16 35 19	6 15 9	1 8 7	2 3 1	1 1					.128	.718	.154
III					13 31 18	91 164 73	56 103 47	12 36 24	9 24 15	3 12 9	2 7 5		1 1			.084	.708	.208
IV						19 31 12	66 140 74	42 89 47	26 48 22	10 30 20	6 13 7	4 10 6	1 1			.088	.632	.280
V							15 30 15	48 130 82	42 92 50	33 55 32	14 29 15	6 6 6	1 6 5			.089	.636	.275
VI							1 3 2	29 49 20	64 111 47	28 59 31	29 48 19	15 27 12	5 13 8			.167	.548	.285
VII								1 1 1	21 34 13	56 113 57	50 89 39	35 65 30	18 37 19	8 18 10		.098	.565	.337
VIII										17 33 16	53 99 46	40 85 45	41 76 35	11 23 12	3 3	.103	.578	.319

2. The scoring of the objective test is not on a percentage basis. It is possible to include in one test questions concerning the work of several school grades. The test score indicates not only the pupil's achievement in the work of the grade he is in, but also his achievement in the work of the lower grades and the extent to which he has learned some of the work of higher grades.

3. The scoring is uniform.

4. A minimum of written expression is required.

5. The test standards are based on the difficulty of the test as determined from the scores obtained by the pupils".

Emphases

During the past school year emphases have been given to certain subjects in the elementary school curriculum.

Reading

A study of the reading showed that too much attention has been given to the mechanical phase and not enough attention to the importance of speed and comprehension. Standard tests were given and diagnosis was followed up with remedial work. Differentiation of work allowed for individual differences and individual instruction. Remedial measures were recommended for improvement in comprehension, speed, perceptual span, lip movement, defective vision, etc. The improvement was measured at definite intervals by further tests.

Arithmetic

A committee has been appointed and has begun work on the study of an arithmetic text book in order to make the best selection for Nashua. Diagnostic tests have been given and remedial work prescribed. The teachers of the primary grades are now making a systematic arrangement of the topics in this subject.

Writing

Emphasis has been put upon improvement in Penmanship. There have been meetings and demonstrations and at present all teachers either have or are working for the Palmer certificate.

Spelling

The schools are now engaged in a drive upon poor spelling. The various scientific scales are being utilized. In the latter part of the year a match is planned among the different schools of the city.

SECTION III

Recommendations

1. More men teachers in both Junior and Senior high schools.
2. No teacher to be elected to the Junior High staff without specific training in that field.
3. A reorganization of the teaching of music in the Junior High school.
4. A full time teacher in Drawing for the Senior High School, inasmuch as the subject is on an even basis with other subjects and the present arrangement curtails work in both the Elementary and Junior High schools.
5. Second year of Kindergarten to do certain definite primary work.
6. A utility teacher to be appointed for the Mt. Pleasant school to serve in tutorial, assistant, and substitute capacity, utilizing the present unoccupied room. This teacher to be available for other schools as a coaching teacher.

Conclusion

This year has been exceedingly enjoyable for me in my work. Whatever success has been attained has been due to the splendid professional spirit of the teaching corps. I am deeply indebted to the Board of Education and yourself for advice and help.

Respectfully submitted,

EARLE T. TRACEY.

Report of Headmaster of High School

Mr. Charles H. Noyes,
Superintendent of Schools,
Nashua, New Hampshire.

Dear Sir:

I herewith submit the annual report for the Senior High School.

The total membership at the present writing is 985 of which 479 are boys and 506 are girls. The school graduated 152 pupils, 130 left during the school year, and 54 failed to return in September.

schools:

Junior High	211
Sacred Heart	45
Hudson	27
Sacred Heart College	13
St. Francis Xavier	6
St. Aloysius	5
Repeaters	13
Left preceding year	20
Other towns and schools	47
Post graduates	7
	<hr/>
	394

Fifty-five per cent of the new pupils entered from the Junior High School.

Enrollment by classes

P. G.	7
Seniors	146
Juniors	185
Sophomores	290
Freshmen	356
Special	1

Enrollment by curriculum

College	288	29%
General	106	11%
Commercial	397	40%
P. Arts	186	19%
P. G. and Specials	8	.8%

The number taking the different subjects follows:

English	971
Foreign Languages	559
Mathematics	542
History (Social Studies)	431
Science	58
Office Practice	22
Stenography	109
Typewriting	277
Bookkeeping	192
Business Training	151
Cooking	60
Sewing	91
Physiology and Nursing	55
Home Organization	24
Commercial Law	87
Shop and Drawing	186
Art	27

The difficulty encountered in some of the subjects can be seen by the median ranks and the per cent of failures for the year ending last June. Some of the ranks represent a small group from which the unfit have previously been eliminated and is therefore a selected group.

Median Failure

English	78.5	7. %
History	79.	8.6
Mathematics	79.2	10.
Latin	80.	6.
French	79.6	4.
German	79.7	3.5
Stenography	77.5	16.7
Typewriting	78.4	4.8
Office Practice	80.	0.
Bookkeeping	77.2	5.4

Physics	75.2	15.7
Chemistry	79.4	1.
Biology	74.	16.6
Law and Economics	79.8	0.
Civics	80.3	5.4
Business Training	77.4	8.8
Home Organization	77.4	3.
Physio. and Nursing	76.5	6.

The median for the school for the year was 78.4.

The median for the graduating class for the four years was 77.

Professor Counts in his book "The Senior High School Curriculum" gives data secured from investigating high schools of fifteen cities "representing progressive tendencies in secondary education." The average number of units offered by those schools is interesting when compared with Nashua. A comparison also follows of the percentage of pupil-periods devoted to each of the subjects.

	NUMBER OF UNITS OFFERED				Percentage of total number of pupil-recitation-periods devoted to each subject.	
	Fifteen Cities		Nashua		Fifteen Cities	Nashua
English	7	units	4	units	18.8%	21.7%
For. Language	12½	"	8	"	11.1	12.6
Mathematics	5	"	4	"	11.0	12.1
Natural Science	6	"	3	"	10.2	5.7
Social Science	5½	"	5½	"	11.4	16.2
Com. Subjects	12	"	7½	"	12.4	15.7
Ind. Arts	13	"	4	"	7.5	7.2
Home Economics	5½	"	4	"	4.7	7.6

The facts above show that, while we offer less English than many or most schools, we still have more pupils taking the subject or spend more periods per week on what we do offer. The foreign language course in our school differs from the others in that we offer German while almost all the others offer Spanish, which is gradually being dropped in favor of the German. It is interesting to note that our total foreign language time is divided into Latin 38.8%, French 44.6%, German 17.1% and the average of the cities investigated, Latin 39.7%, French 26.5%, German 2.2%,

Spanish 31.5%. Our time in mathematics is divided much like the other cities except those schools which have composite mathematics for the freshmen.

A tabulation of the freshmen ranks shows that a greater per cent of our failures are caused by pupils who did not enter through the Junior High School, and it also shows that many failures result from transferring from other cities.

FRESHMAN MARKS 2nd SEMESTER 1927-28

	Junior High				All other Entrants				Whole Class		
	A	B	C	D	F	A	B	C	D	F	F's
English	3	31	33	27	6	2	24	29	31	14	9
Anc. Hist.	10	47	26	17	0	13	40	20	20	7	2
Algebra	16	28	21	28	7	15	38	23	16	8	7
French	3	33	38	26	0	20	37	17	11	15	4
Latin	9	30	29	25	7	13	33	40	7	7	7
Civics	10	35	32	20	3	5	10	32	38	15	7
Bus. Train.	9	21	36	34	0	0	23	29	27	21	16

Above table is on percentage basis

The largest groups of our 1928 graduates enrolled at the University of New Hampshire and the Keene Normal School, both of which institutions have no very rigid requirements beyond a high school diploma. It is interesting to note that 8 pupils of the lowest half of the class (and 5 of these in the lowest quarter) were allowed to enter-pupils on whom the institutions would have conferred a kindness by refusing them admission. Pupils who have not taken high school mathematics designed for engineering courses are regularly allowed to matriculate in those courses at the State University.

A high school reading list has been compiled by a committee of English teachers under the chairmanship of Mrs. Williams. This list not only specifies the books which may be read by the pupils, but also gives the points of credit for each and shows whether they are in the school library or the Nashua Public Library.

The library is being catalogued and during the year every freshman has been given instruction in the use of the library. No special committee is empowered to have control

over this important department, so from year to year it has just drifted along without either addition or much attention. It seems that one hundred dollars each year is a minimum which should be devoted to new books and replacements.

The following standardized tests have been given: Test of mental Ability, Iowa Placement English Examination, and Gregory History Tests. These were given to seniors by the State Department of Education. We also gave a series of tests from the United States Civil Service Commission to determine stenographic difficulties. The English department gave to the whole school diagnostic tests in English Composition, and Terman Group Tests have been given to the freshmen.

The new basement rooms, added during the summer, provide for some of the pupils some of the time, but they are makeshift school rooms. It is evident that we long ago outgrew this building and another increase of about a roomful next fall causes one to wonder how far this process of squeezing can be carried. An annex, which must be built, can easily be so constructed that it will include a much needed gymnasium. This is one of the very few New Hampshire cities that does not have a gymnasium. Berlin, Concord, Dover, Keene, Manchester, and Littleton have surely anticipated Nashua in the matter of physical training and recreation. The high school is most deeply indebted to the Y. M. C. A. for their hospitality these many years, but we cannot expect them to curtail their own program to give us gymnasium facilities.

The willing cooperation which I have received throughout the year has been greatly appreciated.

Respectfully submitted,

WALTER S. NESMITH.

Report of Principal of Junior High School

Mr. Charles H. Noyes,
Superintendent of Schools,
Nashua, New Hampshire.

Dear Sir:

I am submitting to you my first annual report of the Junior High School. I wish to congratulate you and the city of Nashua on the general excellence of the organization of the school, and the superior quality of instruction carried on in the individual classrooms.

My predecessor had brought the school to such a high state of efficiency as to the organization and type of work being carried on that the main problem which confronted me on taking charge of the school was the maintenance of the high standards under which the school has been operating for the past few years. At present I believe the school in all the phases of its activities is proceeding along lines of activity which in so far as possible under the existing conditions, conform to sound junior high school theory and practice. There is little in the way of improvement of the general status of the school that can be suggested. Minor changes must take place from time to time to meet the changing circumstances and existing emergencies. Normal progress and growth demand that we give our attention to these details, at the same time look forward to the day when it is possible to incorporate into our school system a type of organization and program that will follow more closely the true junior high school idea.

In suggesting the 6-3-3 type of organization of the school department I simply am bringing to your attention the recommendations made by the principal of the Junior High School in the Annual Reports of the Board of Educa-

tion years 1924 to 1926, and that of the Assistant Superintendent of schools in the report of 1926. It is not necessary for me to again re-iterate the advantages of the three year Junior High School. The value of this type of organization were excellently and exactly set forth in the reports mentioned above. However, I do wish to go on record as highly in favor of the three year Junior High school with all the attendant values of such an organization in regard to (1) program of studies; (2) guidance work; (3) scholastic success of pupils; (4) extra curricula activities; (5) benefit to the Senior High School; (6) homogeneity in grouping, (physiological as well as psychological); (7) holding power of school; (8) bridging the gap between Junior and Senior High; and finally (9) the athletic program of both Junior and Senior High Schools. There is no question but what the future will bring to this city the same type of school that has proved to be of such inestimable value to other communities similar to our own. The three year Junior High school is no longer an experiment. It is the greatest contribution to our educational system that has developed within the last decade.

In this connection permit me to quote the Fifth Year Book of the Department of Superintendence which defines and distinguishes the junior high school by the following characteristics:

1. A separate building in which to house the seventh, eighth and ninth grades.
2. A separate staff of teachers.
3. The recognition of individual differences in capacities, tastes, and purposes in the organization and conduct of class work.
4. A program of studies differing from the course of study to be found in the like numbered grades of the traditional school in America.
5. A partial or complete departmental organization of subject-matter and teaching.
6. The organization of a limited number of curricula, each containing groups of constant and variable courses.
7. A definite and effective plan of pupil guidance.

8. Certain elective studies to be chosen by pupils under guidance.

9. Promotion by subject.

10. Organization and administration of student activities in accordance with the needs and interests of adolescent pupils.

I wish to emphasize certain sections of the above which were brought to your attention in previous reports concerning this school. I refer to (1) the need of a definite plan and provision for educational and vocational guidance; (2) a program of studies made up of constants and electives with a limited number of curricula; (3) promotion by subject; (4) more complete recognition of individual differences in adapting the subject matter and classroom work to the ability, interests, and capacity of the pupils.

The Research department of the National Education Association has made a careful survey of the current practice regarding the curriculum and subjects offered in the junior high schools throughout the country, based on the various sized enrollments. The program of studies for a junior high school with an enrollment of 500-1000 pupils, based on practices in forty-nine junior high schools is given below. Our school should be considered in this class.

Seventh Grade		Eighth Grade		Ninth Grade	
SUBJECT	Ave. No. periods per week	SUBJECT	Ave. No. periods per week	SUBJECT	Ave. No. periods per week
Social Studies	7	Social Studies	6	English	5
English	7	Mathematics	5	Health	3
Mathematics	5	English	6	Social Studies	5
Health	3	Health	3	Mathematics	5
Music	2	Industrial Arts	3	*Music	2
Industrial Arts	3	Home Economics	3	*Foreign Language	5
Home Economics	3	Music	2	*Industrial Arts	6
Art	2	*Art	2	*Home Economics	6
		*Foreign Language	5	*Commercial Studies	5
		*Science	4	*Art	5
		*Commercial Studies	5	*Science	5

*Elective

I bring this to your attention in order to compare the program set for the above with current organization and practice regarding the curriculum in our school.

1. English receives throughout the program much greater emphasis than we place on this subject, even though it is well established that many of our pupils have a decided language handicap. Our program calls for four periods a week devoted to the English work in both grades. This time allotment is entirely inadequate for our work in English, particularly so considering the fact that 5 periods each week are devoted to the subject of Mathematics.

2. There is definite provision for instruction in health, one of the cardinal principles of secondary education. We offer no instruction in health.

3. The program is made up of constants and electives, but the electives do not start until the eighth year. We have elective studies in the seventh year.

4. The foreign language is elective in the eighth year. A foreign language is elective in the seventh year in our school.

5. Science is an elective in the eighth year. We require science of all pupils and offer it in the seventh year.

6. The social studies are required of all pupils with due and sufficient emphasis placed on the subject. Our pupils who do not select a foreign language receive four periods a week of history and four periods a week of Geography in each school year, and all pupils receive four periods a week in history.

I recommend that a definite study of our program be made during the current year so that it will not only meet the standards necessary for approval by the State Board of Education, but will insure greater flexibility in our organization and bring about the necessary changes to meet the needs and capacities of our pupils.

I particularly desire some change in the organization of the school for instruction in music. At present we are following the only procedure that seems available. On successive days the director of music meets half of the school or approximately 325 pupils in the assembly hall. It would obviously be impossible to teach mathematics, Latin or English to a group of pupils numbering 325 pupils. It is preposterous to expect that instruction in music can be given

to such a large number in a single group. Unless some arrangement can be made for the music teacher to have the pupils in smaller sections, it seems advisable to recommend that the period be given over entirely to music appreciation and mass singing purely for recreational and inspirational purposes. I hope that it will not be necessary to resort to such a practice.

The enrolment of the school has reached such proportions that it has been necessary to add another teacher to the staff, thus reducing the overcrowded condition particularly in the first year classes which prevailed during the early part of the year. Our Assembly hall long ago proved to be inadequate to house the entire school both from the standpoint of available room and safety of the building. It is impossible to get more than one half of the school into the assembly hall at one time. Obviously this is a great handicap in bringing about complete unity of spirit and organization in any school.

From a supervisory standpoint, there is a need to unify the instruction in the various branches of our program of studies. In a school where there is complete departmental organization of subject matter and teaching, and where two or more teachers are teaching the same subjects, it is essential that there be some uniformity as to the emphasis placed on the minimum essentials of each subject. Thus we have the right to expect that the work in the various departments will be so organized that each child will receive the same emphasis on the minimum essentials of the subject whether he is taking the subject from one teacher or another. In some schools, department heads supervise carefully the work to obtain this uniformity in the different courses. We aim to accomplish these same results by holding teachers meetings in the various departments of Mathematics, History and English. It is our aim to consider carefully the state program and programs now in use in other communities in order to provide an outline for each subject which will conform to the state program of studies at the same time be more definite and applicable to our own needs in this city.

The Terman Group Test of Mental Ability has been administered to all of the pupils of the school, and the results have proved to be a source of great help to the principal and teachers. Many teachers are employing the new type tests as a part of the instruction in the various classes, but it is hoped that a definite testing program will be incorporated into the work of the school another year, with particular emphasis placed on the standard tests now available for use in English and Mathematics.

As far as our extra-curriculum program is concerned, the same high type of work is being carried on as in the past. These activities have justly brought favorable comment and praise from the State Department as well as other authorities who are intimately acquainted with our activity program. An effort has been made to interest more pupils in athletics. A baseball league was organized last Spring, and the pupils under the supervision of Mr. Hargrove took over the responsibility of umpiring and looking after the games. The American Legion furnished a shield as a trophy for the championship team of the league. We are forced to abandon basketball as a competitive sport with outside schools due to the fact that no suitable place in which to play the games is available. We are attempting to work out under rather adverse conditions an intra-mural basketball program.

An excellent Prize-Speaking Contest was held with approximately sixty pupils taking part in the preliminary and final contests. We hope to continue this valuable activity as well as to obtain greater interest in prize speaking on the part of the general public.

The school presented for the first time an operetta under the direction of Mr. Wilson. We have received due credit for this undertaking and hope that the production of an operetta will be the final project in music each year. The other phases of our activity program are functioning very satisfactorily and need no comment.

The attendance of our school is excellent. This is due to the general spirit and holding power of the school as well as to helpful and efficient service rendered by the attendance officer, Mr. Jams Mulvanity.

We are particularly grateful for the repairs made in our building during the past year. The installation of electric lights throughout the building has been a great help to the day school, and particularly so in the case of the evening school. Furthermore, since the recent repairs made to the ceiling in the basement, there is no need for further worry that falling plaster will cause any bodily harm to the pupils during the recess period. However, attention is called to the deplorable condition of the finish in the assembly hall, office, corridors and many of the individual classrooms.

I wish to take this opportunity to express my appreciation to the Board of Education for the interest they have displayed in the Junior High School in manifold ways. I am indebted to the Superintendents for their many suggestions and helpful advice. To the teachers I express my appreciation for their loyalty, industrious efforts and cooperation.

Respectfully submitted,

ROBERT F. PERRY.

Report of Supervisor of Music for High and Junior High Schools

Mr. Charles H. Noyes,
Superintendent of Schools,
Nashua, New Hampshire.

Dear Sir:

I herewith respectfully submit my report of the Music in the Senior and Junior High Schools of Nashua for the year 1928.

The Music Department occupies an important place in the Public School System. The study of music exerts a great and good influence upon the building up of a pupil's ethical character; its cultural training instils the desire for that which is finer in life's experience, and its discipline and routine tends toward good citizenship.

In fact, the value of any phase of activity in a school system may well be tested from seven standpoints which are the cardinal principles of education.

1. Health
2. Command of the Fundamental Processes
3. Attainment of Worthy Home Membership
4. Preparation for a Vocation
5. Worthy use of Leisure Time
6. Civic Education
7. Ethical Character

The following outline shows the value of participation in the study of music as tested by the above mentioned standpoints.

1. Health

Singing, Breath Control.

Care of vocal apparatus.

Band and Orchestra.
Wind Instruments.
Band outdoor activities.

II. Command of the Fundamental Processes.

Sight reading of Music.
Development of the Senses of tune, tempo, rhythm.
Coordination of eyes, ears, nerves, and muscles.
Relation of Music Appreciation and General History, Geography and Language.
Mechanical Knowledge in the simple care of an instrument.
Mental Alertness in Band and Orchestra Ensemble.
Universal Language.

III. Worthy Home Membership.

Instrumental talent.
Vocal talent.
Home rehearsals.
Home performances.
Assistance at home.
Entertainment participation.

IV. Preparation for a Vocation.

School Experience foundation for Vocation.
Ensemble Orchestra or Band experience vital feature.
Solo Performance.

V. Leisure Time.

Rehearsals out of school time.
Home Practice.
Individual Practice—extra practice.

VI. Civic Education.

Respect for Authority. Discipline.

Cooperation in Band, Chorus, Orchestra.

Control of Emotions and Development of.

VII. Ethical Character.

Responsibility — Orchestra, Chorus, Band.

Character Building definite part of Band activities.

The Aims and Objectives of the Music Department:

To provide everyone with intelligent instruction in music, which will utilize musical endowments no matter how meager, and which will result in pleasure and profit.

Create and develop love for good music, classic masterpieces and recognized modern classics.

Develop good singing voice, and easy speaking voice.

Teach the reading of music at first sight.

Musical Interpretation.

Coordination of faculties and muscles used in producing music.

Develop respiratory organs, stimulate mental energy toward use in other tasks.

Train mind toward cheerful and optimistic outlook on life.

Keep up and create morale.

Develop emotional control.

Team work, unity in action.

Unearth musical talent, and further it.

Develop religious and patriotic feeling.

Give repertoire of fine songs and melodies to the pupil so that he may have a permanent means of self expression.

Develop school spirit toward an enjoyable association during the school years.

The Junior High School passed a successful year in choral and orchestral work. Miss Kelly's valuable assistance to the Junior High Orchestra is a great factor in its success.

An outstanding event was the operetta, "The Love Pirates of Hawaii." It was successful financially and musically. Miss Côté's work during rehearsals and performance was indispensable, and the orchestra trained by Miss Kelly gave adequate accompaniment. Great impetus was given this operetta by the personal coaching and attention of the principal, Robert Perry.

Music had its part in graduation, both in choral and orchestral selections.

The teaching of large classes in music in the Nashua Junior High School is not satisfactory. Smaller classroom groups should be used to continue the gradual steps in theory and sight reading from the fifth and sixth grades.

The Senior High School Music Department naturally had a busy year, not only in its weekly study work and practice, but in public performances.

The opera of "The Two Vagabonds" by Jakobowski was successfully given for the Athletic Association's treasury. This opera is of major difficulty and the students participating deserve great credit for the most excellent performance. The teachers gave generously of their time, and the students all appreciated their help. The work of the High School Orchestra in supplying the orchestral accompaniment was noteworthy.

In May the Annual Music Festival was given by chorus and orchestra.

Senior graduation came in June, with the usual choral and orchestral selections.

During the year the orchestra, assisted from time to time by chorus members, has given concerts in response to various calls. Following is a partial list:

At Junior High for Students.

Y. M. C. A. for Young Business Men's Club.

High School assemblies.

Senior Play.

Older Boys Conference.

Teachers' Tea Party.

Teachers' Bridge Party.

Christmas Carols with string orchestra accompaniment were sung at Yuletide in the Homes for men and women of advanced years. This is an annual custom and it brought cheer to many hearts.

In closing I would like to speak about the Nashua High School Band which as yet is unborn.

"Here Comes the Band!" Every spectator leans forward in his seat, a hundred thousand eyes seek eagerly a glimpse of the gracefully moving young musicians in their attractive uniforms, and all hear the stirring music of the march. It is a great moment of our greatest outdoor spectacle. Lacking a band the spectacle loses much of the color and glamor, the "pomp and circumstance" that help so greatly to attract the patrons of outdoor sports. The band, its music, etc., marching and its evolutions, have become a well-recognized and highly appreciated feature of most of these popular gatherings, whether they occur in a high school field or college, or municipal stadium, in a park or on the streets of a city or little town. Even the spectators who cannot grasp all the fine points of a football game can fully appreciate good music and marching. The High School Band is a feature of American life. It is the vital agency in creating morale and esprit in the organization or community of which it forms a part.

May those in authority, who once were schoolboys, make our band possible, and let not precious moments be lost.

Respectfully submitted,

ELMER WILSON.

•

Report of the Supervisor of Music for the Elementary Grades

Mr. Charles H. Noyes,
Superintendent of Schools,
Nashua, New Hampshire.

Dear Sir:

I herewith submit my third annual report as Supervisor of Music in the Elementary schools of Nashua, New Hampshire.

Music in the grades has progressed very satisfactorily this past year, nearly every grade in the city being to the required standard at the present time.

This term a harmonica band has been organized with about two hundred enthusiastic boys and girls enrolled. Thus far we have had just two rehearsals, but the outlook is quite promising.

An orchestra of thirty-five pieces has been formed, rehearsals starting at the beginning of the new term. The parts consist of piano, violins, cornet, flute, clarinet, guitar, and drums.

The day before Christmas a group of boys and girls, selected from each sixth grade in the city, sang Christmas carols at the Mary Hunt Home, The John Hunt Home, Memorial Hospital, Home for Aged Women, and St. Joseph's Hospital.

The cooperation of the Superintendent, Assistant Superintendent, Board of Education, the Music Committee, and the teachers has been much appreciated.

Respectfully submitted,

MARION A. KING.

Report of Director of Manual Arts

Mr. Charles H. Noyes,
Superintendent of Schools,
Nashua, New Hampshire.

Dear Sir:

I herewith submit the annual report of this department for 1928.

Early in the spring of 1928, a local contractor laid a much needed floor in the large shop in the basement of the Quincy Street School. Some six inches of excavating was done and this was filled with about four inches of broken stone which was covered with a tar mixture. A two inch planking was laid on this and a maple floor laid over the two inch planking. This made a very substantial job and undoubtedly will last for a number of years.

In September, when school opened, this room was partitioned off into two shops; a wood working shop with 24 benches for grade work and an electrical laboratory for Junior and Senior High School work. The electrical laboratory will accommodate thirty students.

The partitions were set, lockers built, and benches installed by the freshman class. The workmanship was good, and much credit is due both boys and instructors. This job alone saved the city approximately \$500.

Before we rented the Spring Street Shop we had a floor area of approximately 8254 sq. ft. With the rented addition we gained 1012 sq. ft. giving a total of 9266 sq. ft.

The grade shop floor space lost was 800 sq. ft. leaving a total space floor now occupied by this department 8466 sq. ft. With the rented addition we only acquired 400 sq. ft. You will see by these data that we have not added adequate floor space to properly care for our large classes.

Our school system is continually growing and each year I find greater demand for the services of this department. This past year we have furnished approximately 8000 clock hours of labor.

Vocational education is a large field and is continually growing. When one reads the reports on vocational education from a few larger states, mainly New York, California, Wisconsin, Ohio and Massachusetts, it is brought very vividly to our attention how little New Hampshire is doing along these lines and the small part Nashua is contributing to this work. Our neighboring state Massachusetts, maintains such schools as the following, Trade School, Part-Time Co-operation, Apprenticeship School, and Industrial Evening Schools and others. These schools are federal, state and locally aided. The only phase of this work Nashua has offered is the evening industrial work, and this, in a very limited way. This past year evening courses were not offered in vocational work. I trust this will be continued in the future.

There is a field for part time and continuation school work in this city. Federal aid can be secured for such work and at a nominal expense to the city, the work could be carried on in many of the trades. We have the necessary equipment and room, because these courses would be conducted in the afternoon.

I believe that gratifying results could be obtained, considering the small investment necessary to maintain these classes.

To those who have contributed to the betterment of this department, their efforts are appreciated.

Respectfully submitted,

JOHN GODDARD.

Report of Director of Home Economics

Mr. Charles H. Noyes,
Superintendent of Schools,
Nashua, New Hampshire.

Dear Sir:

On the afternoon and evening of the twenty-third of March the Home Economics and the Drawing Departments held an exhibition at the Quincy Street School. The Home Economics Exhibition was arranged so that it would show the work covered by this department from the sixth grade through the High School. The exhibition was very well attended both in the afternoon and evening.

Because the field of Home Economics has grown to include so much beside cooking and sewing, I will present to you the courses now offered. The aim of these courses is "to teach Worthy Home Membership through pertinent knowledge, skills, attitudes and ideals developed in the activities of the school and in the projects of the home." Every girl enrolled in the sixth grade and Junior High School takes the Home Economics course but the Senior High School courses are elective only to those taking General or Commercial work.

Grade VI

Clothing ½ year

Through the making of a cap and apron the girls learn the use of equipment, basting, hand hemming and machine stitching.

Foods ½ year

The work is confined to the preparation of simple dishes for children, table setting, table service and very elementary work in food values.

Junior High School

First Year

Clothing ½ year

This work consists in the selection and making of suitable undergarments, household sewing and care and repair of clothing, also lessons in bedmaking and care of a bed room.

Foods ½ year

This course consists of the study and preparation of various dishes used for the three meals: the study of the food requirements of children and adults, also the housewifery connected with the kitchen and dining room.

Second Year

Foods ½ year

The preservation of food materials is taken up in the first four weeks of the semester. The remainder of the work is based upon the preparation and serving of well balanced meals.

Clothing ½ year

The selection and making of a suitable Junior High School Graduation Dress.

Senior High School

First Year

Clothing

Units

1. Clothing Selection

Study of textiles, relation of clothing to health, to economy, and to social needs.

2. Clothing Construction

Use of patterns, sewing machine and machine attachments, other aids to efficiency, decorative stitches.

3. Care and Repair of Clothing

Mending, laundering, removal of stains.

4. Dress Accessories

5. Household linens and other furnishings
6. Costume design
Adaption of fashions.

Second Year

Foods and Nutrition

Units

1. Nutrition
Composition and digestion of food.
2. Food Products
Source, manufacture, marketing, storage and care.
3. Principals of Food
Preparation and Preservation
4. Meal Planning
Preparation and serving for the family and for special occasions.
5. The Kitchen, Store Room and Dining Room
Equipment, arrangement and care. Types of stoves, etc.

Third Year

Physiology and Nursing

Units

1. Physiology and Anatomy
 2. Individual Health
 3. Community Health
 4. Invalid Cookery
 5. Home Hygiene
 6. Child care and Training
 7. First Aid
- Girls taking this course receive certificates in Home Nursing and Hygiene from the National Red Cross Headquarters in Washington, D. C.

Fourth Year

Home Organization

Units

I The House

History, selection, location, plan, and cost, plumbing, heating, and lighting.

II Furnishing the House

Cost, care and arrangement of furniture, hangings and decorations.

III Management

Care and cleaning of house, methods of scheduling work, and processes involved.

IV Appliances of value in the care of the home, appropriate tools, conveniences and labor saving devices.

V Household Accounting

Budgeting the family income — source, use and satisfactions.

VI Planning and care of the home grounds, the lawn and garden.

VII Family and Its Members

Home membership and its responsibilities, community responsibilities.

VIII Use of Leisure Time

IX Choice of vocation

Opportunities open to girls and women, preparation required.

An increase in the number of Freshmen electing Home Economics this September made it necessary to form seven classes in clothing. This increased the number of classes in design, four of which could not be taken care of by the Drawing Department. Miss Shannon and Miss Shepherd are each teaching two of these classes. An increase in the number of Sophomores electing Foods and Nutrition made it necessary to form another class in this subject, which is being taught by Miss Blakney. Because of the increase in classes Miss Lillian Hartwell of Nashua was elected a regular teacher to this department. Miss Hartwell completed her observation work with us before graduating in June from Lesley Normal School of Cambridge and substituted very successfully at various times during the year.

In June one of the Manual Training Rooms at the Quincy Street School was turned over to this department to

be equipped as a foods' laboratory. This seemed the logical room to use as it was connected with the dining room and we could use that equipment for meal service. The walls were painted, a new linoleum laid, partitions built, and five sinks and one set tub installed during the summer. This laboratory has five unit kitchens, each unit containing a gas stove, kitchen cabinet, table, four stools and a sink. Four girls work in each unit under practically the same conditions as in their own homes. The addition of this room has made it possible to do practical work in Dietetics with the Juniors and to allow Seniors to cook and serve meals that they have planned.

I wish to thank the Superintendents, Home Economics Committee and House and Building Committee for making it possible for us to have this new equipment, the Manual Training Department for their help in installing the equipment and the Drawing Department for help with decorations.

During the year the following courses have been taken by teachers in this department:

Miss Hartwell

N. H. State University Summer Session		
Bacteriology	30	hours
Advanced Foods and		
Cookery	"	"
Family Relationship	"	"

Miss Shattuck

Fitchburg Normal School Summer Session		
English Composition	30	hours
Psychology of Teaching	"	"

Miss Dolan

N. H. State University Summer Session		
Bacteriology	30	hours
Zoology	"	"
Family Relationship	"	"

Miss Ruth Hills

Nine weeks in Dietetics in Massachusetts General Hospital completing a six months' course.

Miss Florence Hills

Boston University Extension Course

Sociology	30 hours
Supervision	" "

Maine State University

Improvement of the	
Written Examination	30 hours
Advanced Child Care	" "
Psychology of Childhood	" "

Miss Harriet Wyatt, a cadet teacher from New Hampshire State University, is carrying on her practice teaching in Nashua under the direction of this department.

Respectfully submitted,

FLORENCE A. HILLS.

Report of Director of Drawing

Mr. Charles H. Noyes,
Superintendent of Schools,
Nashua, New Hampshire.

Dear Sir:

In my last report I asked to have the partition between Rooms 35 and 37 in the Senior High School changed to make two rooms of equal size. The request was granted, and the work done during the summer. Since September instead of using both rooms, in common with two other departments, Miss Sanborn and I have had the exclusive use of Room 37. Not only is it better for class work but it makes it easier to handle and keep account of our supplies.

It was decided to offer the Sophomores and Juniors in the Senior High School two periods of work in art each day instead of one. Ten hours a week of teaching were added to our work by this decision. Also the number of the divisions of the Freshman Class was increased from six to seven. As Miss Sanborn's and my programs were already full, something had to be omitted for us to take up the work. The best arrangement we could make of our time was for Miss Sanborn to visit the first four grades once in three weeks, instead of once in two, and for me to cut my time at the Junior High School in half. It is to be regretted that these were necessary for grade teachers need frequent help in teaching drawing from especially trained teachers.

In March the drawing, household arts, and kindergarten departments united in holding an exhibition in the Quincy Street School. In addition to showing our regular work we demonstrated our method of stencilling on cloth. High School girls, in smocks, which they themselves had made, sat at tables, and transferred patterns onto table runners,

scarfs, and kimonos by means of hand-cut stencils, and brushes dipped into oil paints. They were continually surrounded by a crowd of interested people.

I take this opportunity of thanking members of the manual training department who helped us in arranging the exhibits.

On account of our reduced appropriation we are unusually short of drawing supplies, but we succeeded in keeping within our allotment.

Respectfully submitted,

ELIZABETH L. BUCKINGHAM.

Report of School Nurse

Mr. Charles H. Noyes,
Superintendent of Schools,
Nashua, New Hampshire.

Dear Sir:

The following is a report of the work in the schools assigned to my supervision.

I have assisted Dr. Davis with all examinations, records have been kept of all defects found, and notices sent to parents when it has been recommended by Dr. Davis.

All pupils have been examined by Dr. Davis once, and the first, fourth, and ninth grades have had a physical examination.

Inspection for cleanliness, contagious and parasitic diseases have been made frequently.

All of the pupils have been weighed and measured and a notice has been sent to the parents of all pupils 10% or more underweight.

Dr. Robert Kerr, Executive Secretary of the Tuberculosis Association of New Hampshire, has continued his school clinic of underweight pupils. As far as possible the 10% or more underweight have been examined by him. Many suspicious cases have been found and all of these cases have continued under Dr. Kerr's care. There is quite a group of these children that have positive skin tests and X-Ray findings. Dr. Kerr tells us that these are the cases which will fill our sanatoriums in the next ten or fifteen years if they do not get treatment now.

Milk has been continued at the morning recess. Through the help of the Community Council a fund has been raised to pay for milk for these children who otherwise could not have it.

The eye clinic, under the direction of Mr. Martin, has continued with good results. All of the pupils of the third and sixth grades and any child from the other grades whom the teachers find does not see well, are examined and a notice sent to the parents of all defects found.

A number of children have been examined at the mental and orthopedic clinic at the Community Council. Three orthopedic cases have been operated on by Dr. Jones since last September.

A number of tonsil cases have been operated on by Dr. Congdon and Dr. McLaughlin. These children were absent from school a good deal because of sore throat and the parents were unable to have this done for them.

Classes in Home Hygiene and Care of the Sick have been conducted in Senior High School. Thirty-seven girls received the Red Cross certificate.

Many home visits have been made as well as many conferences held with mothers who have come to the school building or to my home to see me.

Much credit is due the teachers for their cooperation in carrying out this program.

I want to thank all who have in any way assisted in this year's work.

Respectfully submitted,

ANNIE B. PETERSON, R. N.

Report of School Nurse

Mr. Charles H. Noyes,
Superintendent of Schools,
Nashua, New Hampshire.

Dear Sir:

At the beginning of the School Year 1927, I was appointed to take charge of the dental work in the schools and also given the general care of Belvidere, Palm, and Ash Street Schools. During the past year 642 children attended the Dental Clinic.

A number of pupils from the Junior High School came to the clinic as well as a carefully selected group from the lower grades and the suburban schools. Most of these boys and girls of the Junior High School had teeth which were in a very bad condition, some beyond repair. On investigating I found these pupils had not attended the public schools while in the lower grades.

The medical and physical inspection; and the examination, weighing and measuring of the children were carried on in each school.

The homes of the underweight and of those needing follow-up work were visited in an effort to have corrections made.

The faithful way in which the dentists did their work, the helpful cooperation of the optometrists, the friendly assistance I received from principals and teachers did much to encourage me in my work.

Dr. F. E. Kittredge, Dr. P. J. McLaughlin and the Community Council assisted greatly in making corrections.

The Memorial Hospital gave free service where patients were unable to pay.

Respectfully submitted,

KATHLEEN HAY.

Report of Director of Evening Schools

Mr. Charles H. Noyes,
Superintendent of Schools,
Nashua, New Hampshire.

Dear Sir:

I herewith submit the annual report of the Evening School for the year 1928-29.

The program of the Evening School for the current year was necessarily curtailed in order to keep well within the appropriation made for this work. Accordingly we limited the classes to (1) Americanization work, (2) Sewing, (3) Commercial work.

The Americanization classes have been conducted at the Temple Street School. Six teachers have been engaged in this work. The number in the Americanization classes seems to grow less each year. Two conditions probably contribute to this decrease in registration. Illiteracy in the city is being reduced somewhat, and those persons who are in the illiterate class have passed beyond the age when it is possible to compel them to attend the Evening School. Furthermore, industrial conditions are not such as to cause an influx of illiterate minors, a condition that prevailed some few years ago. Illiterate adults or persons who voluntarily come to the Evening School for training in the Americanization and citizenship classes make up fifty percent of our school.

Classification of School

1. Illiterate Minors — These are persons between the ages of 16 and 21 who cannot read and speak English understandingly, and who are required by law to attend Evening School.

2. Illiterate Adults — Persons 21 years of age or over who cannot read or speak English understandingly, but who are not compelled to attend Evening School.

3. Literate Persons — These are 16 years or above who do not belong to either of the two classes.

Commercial	105	31	74	105	81	12	87.2

The enrollment in the Commercial classes has been below the usual number due to the fact that there was some uncertainty in the minds of the public as to the status of the Evening School for this year. The quality of work done and the progress attained by the pupils has been excellent. Under the direction of Miss Grace Campbell this branch of our school has maintained the same high standards of past years.

Adult education is a problem that must be faced sooner or later by every progressive community. The well known popularity of extension courses, correspondance course and growth of private schools catering to the needs of adults is sufficient proof of the widefelt need and interest of adults in furthering their education. Many of our young people leave school as soon as they reach the compulsory school age, due either to (circumstances) which require them to go to work or (2) lack of interest in the school work. The first class of people welcome the opportunity of continuing their education in the Evening Schools; — the second class after a few years have elapsed usually come to the realization of the necessity of improving themselves. Courses should be organized to fit the needs of these people. Evening School should be at least put back on the same level attained a year ago, and carry on a program for which it deservedly received due recognition and praise.

The faculty of the Evening School is composed of experienced teachers. It has been a privilege to work with such an earnest group and I wish to express to them my sincere thanks for their faithful work and loyal cooperation.

Respectfully submitted,

ROBERT F. PERRY.

GRADUATION EXERCISES

NASHUA HIGH SCHOOL

CLASS OF 1928

Auditorium

Friday, June 22, 1928

Eight O'clock P. M.

CLASS OFFICERS

LAURENCE ALVIN BARKER, President

FANNIE MARY ELKAVICH, Vice President

ANNIE SEDGWICK, Secretary

WALTER A. CALDERWOOD, Jr., Bus. Mgr.

UPPER QUARTER 1928

1. Evelyn May Clement — Valedictorian
2. Arthur Burton Brainerd, Jr.
3. Dorothy Inez Stickney
4. Virginia Holt Dunlap
5. Frances Royle Sullivan
6. Dorothy Ardelle Prew
7. Gertrude Mirsky
8. Eleanor Dorothy Libbey
9. Josephine Pease Parkhurst
10. Laurence Alvin Barker
11. Thelma Pearl Ferryall
12. Muriel Hazel Fissette
13. Irene Pearl Bouchard
14. Doris Lillian Smith
15. John Aponovitch
16. Marion Lena Fields
17. Evelyn Cecyle Blankenberg
18. Lena Sassé
19. Helen Adeline Sullivan
20. Sarah Elizabeth Chaplin
21. Thelma Rockwood Milliken
22. Richard Joseph Bedard
23. Richard Baybutt
24. Florence Clark Cheney
25. Frances Helen Mills
26. Nellie Katherine Satkowski
27. Jeremiah Paul Sullivan
28. Louise Mulholland Forbes
29. Alexander Emile Maynard
30. Cecile Agnes St. Onge
31. Floyd Upton Bancroft
32. Max Sam Newman
33. Laurretta Gladys Griffin
34. Stanley William Yudicky
35. Andrew Viateur Dion
36. Dana Lewis Clark
37. Bernard Warren Sharpe
38. Doris Mellie Shaw

CLASS 1928
LATIN COURSE

Florence Elizabeth Anderson	Lionel Lucien Meunier
Floyd Upton Bancroft	Agnes Margaret Molloy
Marion Elizabeth Black	Paul Anthony Moran
Florence Clark Cheney	Esther Claire Moriarty
Evelyn May Clement	Max Sam Newman
Cecilia Eleanor Downing	Phyllis Gertrude Powers
Virginia Holt Dunlap	Dorothy Ardelle Prew
Frank Daniel Elkavich	Doris Mellie Shaw
Thelma Pearl Ferryall	Helen Gwendolyn Smith
Marion Lena Fields	Dorothy Inez Stickney
Lauretta Gladys Griffin	Frances Royle Sullivan
Eleanor Dorothy Libbey	Helen Adeline Sullivan
Myra Veronica Lyons	Jeremiah Paul Sullivan
William Francis Maddox	Helen Marguerite Winn
Ruth Mary McGlynn	Stanley William Yudicky

LATIN-SCIENTIFIC COURSE

Howard Mather Bancroft	Ada Eta Kamenske
Aramis Arthur Boyajian	Ursula Veronica Kelly
Arthur Burton Brainerd, Jr.	Elbridge Everett Mansfield
Thelma Maybelle Bryant	Herbert Allen Millet
Marguerite Angeline Buchanan	Esther Constance O'Neil
Sarah Elizabeth Chaplin	Josephine Pease Parkhurst
Raymond Henry Chartrain	Roy Joseph Pierce
Helen Crosby	Francis William Rees
Andrew Viateur Dion	Ned Spaulding
Elizabeth Geraldine Downey	Kathryn Mary Sullivan
Irene Edwina Enright	Herman Tobey Weymouth
Muriel Hazel Fissette	Vivian Frances Workman

GENERAL COURSE

Richard Joseph Bedard	John Leonard Karstock
Walter A. Calderwood, Jr.	Marguerite Anne Koughan
Kenneth Ross Chaplin	George Albert Lajoie
Peter Victor Chesnulevich	Patricia Antoinette Lyons
Dana Lewis Clark	Donald Joseph Marion
Geraldine Frances Dinan	Joseph Peter Michealonis
Vera Lucile Fields	Claudia Edith Parker
John Joseph Grigas	Willard Brooks Phelps
Norman Albert Hagerty	Earle Milton Sargent
Maurice Oilver Jeannotte	Ralph Leonard Shea

COMMERCIAL COURSE

Phyllis Adams	Claire Yvette Lemieux
Virginia Victoria Atwood	Yvonne Isabel Lesieur
Thelma Leocade Bancroft	Florianne Rachel Levesque
*Evelyn Cecyle Blankenberg	Leona Ella Linscott
*Irene Pearl Bouchard	Isabel Louise Lyon
Doris Selena Bouthillier	Wesley Brandon Mansfield
Rachel Brown	Christine Adeline Martin
Thelma Julia Burgess	Mary Margaret McCaughney
Rose Cerier	Lenore Angeline Miller
Gladys Sibia Chase	*Thelma Rockwood Milliken
Anna Chimiklis	Frances Helen Mills
Ronald Edward Christian	*Gertrude Mirsky
Doris Ethelyn Classon	Florence Mildred Moss
Lorette Mary Rose Côté	Mildred Louise O'Neil
Winthrop Andrew Crowell	Beatrice Isabelle Rigney
Anna Mary Cummings	Dorothy Mary Ruf
Helen Veronica Daly	Beatrice Eva St. Laurent
Cecile Angelina Desmarais	*Cecile Agnes St. Onge
Fannie Mary Elkavitch	*Lena Sassé
Edith Elsworth Fifield	Nellie Katherine Satkowski
*Louise Mulholland Forbes	Annie Sedgwick
Olivine Corine Gagnon	Irene Anna Shea
Mildred Helen Gallagher	*Doris Lillian Smith
Helen May Grapes	Alice May Shattuck
Dorothy Frances Hanscomb	Florence Alma Snow
Gertrude Bertha Harris	Hazel Elizabeth Sughrue
Dorothy Francis Harte	Mary Helen Sullivan
Bernice Alberta Howorth	Annie Helene Trainovech
Stanley Benjamin Kupchun	Helen Sarah Upton
John Andrew Labednick	Mary Pauline Vencius
Lorraine Angela Lavoie	Lucille Walton
Anna Madeline Zapenas	

MANUAL ARTS COURSE

John Aponovitch	Alexander Emile Maynard
Laurence Alvin Barker	James Francis O'Hare
Richard Baybutt	Albert Paul Richard
Peter Walter Chestnolovich	Bernard Charles St. Onge
David William Fessenden	Bernard Warren Sharpe
Nelson Delmar Hall	Arthur Fred Spaulding
Stanley Robert Tenerowicz	

HOUSEHOLD ARTS COURSE

Marjorie Eleanor Frank

Hazel Marguerite Lowd

The Valedictorian is the highest in rank. The orator was chosen by the class from the first quarter.

*Superior work in commercial subjects.
